Komisioni i Pavarur për Miniera dhe Minerale
Nezavisna Komisija za Rudnike i Minerale
Independent Commission for Mines and Minerals

Prishtina, June 3rd 2011

To whom it may concern

**Invitation: International Mining Investors Conference Kosovo
September, 14th 2011 to September, 16th 2011**

Dear Sir/Madam,
Dear Madams and Sirs,

the EU is supporting the Geological Survey and the Mining Authority, the Independent Commission for Mines and Minerals (ICMM), of Kosovo in their effort to re-evaluate and to promote the known minable resources of the country. In this context, a large-scale sediment survey has been carried out as well. This EU funded Project managed by the European Commission Liaison Office to Kosovo (ECLO) operates under the name "Support to ICMM".

The results of these activities will be presented to a select group of potential investors. As you might know, Kosovo had a well established mineral resource industry and was a leading producer of lead and zinc in the past. Nowadays, only the active lignite and nickel mines remind us of these prosperous times. This conference shall now introduce you to the new Kosovo. We will put you in touch with the persons in charge of matters concerning investment policy, taxation system, mining industry, etc. A detailed program will be forwarded to you in the course of the next month.

We would very much appreciate it if you decide to support us in our intention to get the mining industry of Kosovo back on its feet.

Please indicate your intention to participate by filling out the attached form. This will allow us to organize the site visit to your benefit. We tend to limit the number of participants to 20 as a larger number of participants would not allow the direct contact to the persons in charge.

Thank you very much.

Yours faithfully,

Azem Rexhaj
Director
Independent Commission for Mines and Minerals
