Assembly of Kosovo

INTRODUCTION

The Independent Commission for Mines and Minerals based on article 57 paragraph 1 of LMM has prepared the Report on the duties performed during 2018, which contains:

- an analyse of the condition of the mining industry in Kosovo; and
- a summary of all regulatory, investigative and enforcement actions taken by the ICMM during 2018; provided however, that such report shall not include any reference to an on-going investigation to the extent such reference would jeopardize legitimate secrecy concerns with respect to such investigation.

The overall purpose of the LMM respectively of the ICMM as implementer of law is to promote the environmentally acceptable exploration, extraction and processing of minerals by regulating and monitoring persons engaged in the mining industry, to facilitate and sustain greater private sector participation and competition in the mining industry, to maximize the exploration and mining of minerals, and to regulate the collection, management and archiving of geoscientific data for the economic development for the benefit of Republic of Kosovo. This report presents summarily the work performed based on these goals within 2018.

Work report contains the work and activity in the area of geology - exploration, mining - exploitation, processing and enrichment, results achieved during the year, the problems and challenges faced by this regulator during its work, and the objectives set for future.

Except the above-mentioned things, the ICMM's work report for 2018 aims to include within itself as well the works performed based on the recommendations set by evaluation of the ICMM's preliminary report by the Committee on Economic Development, Infrastructure, Trade and Industry of the Parliament of the Republic of Kosovo, which they were very significant regarding the improvement of the investment climate in this sector by improving the legal structure and harmonizing the inter-institutional legal collisions, encouragement and coordination with all other state institutions to prevent and stop the informal economy, raise the analysis level related to the achievements and challenges for regulation of this sector and its sustainable development.

This report is organized based on standards formulated for reporting to the Assembly of the Republic of Kosovo and it has the following content:

The executive summary, which describes the whole report and gives a general overview of the Institution's work;

Legal basis, in which it is listed all the legal basis regulating the functionality of the institution, as well as legal difficulties in implementation of its responsibilities;

Description of the Institution, which contains mission, vision, scope and competencies of the ICMM foreseen by the Law on Mines and Minerals, as well it describes organizations with main responsibility for the ICMM's work.

Institutional organization, is the part where there are presented forms and ways of internal organization, particularly it contains information about the Board, Executive and staff of the ICMM in general.

Description of the ICMM's scope, with special importance, comparison of the implementation of the plans, actions undertaken and the challenges outlined and planned for the future.

Work during the previous year, there are focused the specific works executed during 2018, and how much the goals foreseen in the previous year have been achieved.

Financial Report, there are presented budget and expenditures for 2018, disclosed with details by certain categories and activities;

Reporting on the comments from the National Audit Office, the comments of the NAO and their addressing by the management of ICMM on the previous audit report; and

Annexes, is the last part that contains additional data presented in various forms, adapted to the nature and access of the information or the data.

It shall be noted that as well during 2018, the Independent Commission for Mines and Minerals has made a maximum commitment to fight informal economy that for years are creating great problems for this institution, to those who operate legally, the environment and in particular to the budget of Kosovo.

Also it is worth emphasising that we had intensified the cooperation with Kosovo Police during 2018, by keeping information meetings with all regions of Police. Whereas regarding the cooperation with judicial institutions, the results are still significant in terms of efficiency and effectiveness of the proceedings on matters referred by the ICMM. The application process of execution procedures to collect the outstanding debts from the category of administrative fines has continued even this year. While we have had unsatisfactory cooperation or lack of support for issues related to mining activity with some of the responsible institutions of central and local level.

The Independent Commission for Mines and Minerals will continue with even more increased intensity during 2019, to support in every aspect all those who deals or pretend to deal with the mining industry, and at the same time it will prohibit, advice and improve all those that are in contradiction with the applicable Law and regulations for the mining sector.

1. EXECUTIVE SUMMARY

1.1. Establishment

The Independent Commission for Mines and Minerals - ICMM is an independent agency determined by the Constitution of the Republic of Kosovo. The ICMM shall regulate mining activities in Kosovo in accordance with the Law No. 03/L-163 on Mines and Minerals, amended and supplemented by the Law No.04/L-158 (hereinafter LMM), with sub normative acts issued pursuant to the present Law and the Mining Strategy. The ICMM shall act in the public interest and independently exercise the powers and carry out the functions assigned to it by the LMM.

The ICMM shall be directed by a Board comprised of 5 members, who according to applicable legislation have a mandate of 5 (five) years. Director manages the executive part of the ICMM who has a mandate of 3 (three) years, while the Chief Inspector manages Inspectorate who has a mandate of 5 (five) years. Structure and other staff of the ICMM consist of the main departments with professional staff and other supporting units with defined duties and responsibilities. The total number of employees in the ICMM during 2018 was 76 employees, from the approved number of 77.

1.2. Achievements

ICMM is responsible body to estimate and collect royalties, administrative fee and fines. **26,024,451.05 €** were collected net in **2018**. The execution trend for revenue from 2015 to 2018 can be seen in the following figure:

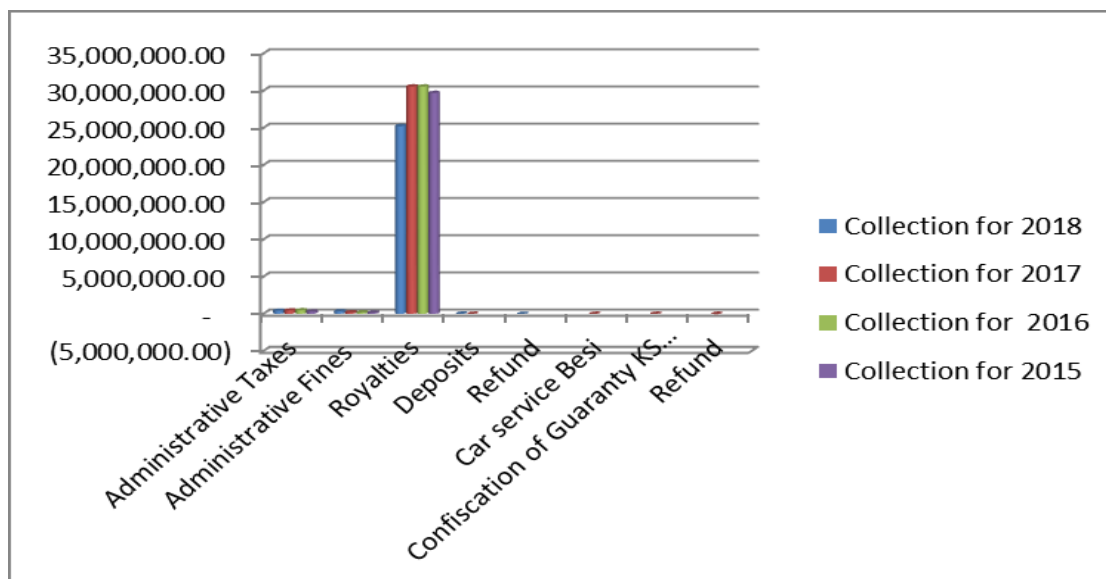

Figure 1. Collection of revenues for 2015-2018

- The ICMM Board has held **32** regular meetings during 2018, where **283** applications for licenses and permits have been reviewed (the applications of enterprises that have been reviewed more than once and the applications of enterprises received before **2018** are included in this number)
- **186** Licenses and Permits (**89** Exploration, **31** Mining, and **66** Special Operation Permits) were issued within 2018 after proceedings of all abovementioned applications under the procedures provided by the applicable legislation.
- ICMM has refused for not fulfilling **the conditions for licensing**, **70** applications for licenses and permits (**35** Exploration, **14** Mining and **21** Special Operations Permits).

- Mineral resources used by categories during 2018 are: Metallic Minerals Pb-Zn (173,243.96 ton), Ni-Co (431,630.06 ton), Energy Minerals (lignite) 7,169,767.00 tons.
- Inspectorate of the ICMM has had a high dynamic of work of visits or inspections in the field during 2018. During this period there have been carried out **1657** visits respectively field inspections. This number includes:

Table 1: Inspections carried out during 2018

Regular inspection	26
Ad-hoc inspections	275
Inspection of pre-blasting fields	547
Inspection of blasting fields	482
Inspection of illegal exploitation	97
Sequestration of Lignite and Sand and Gravel	16
Other inspections	214
Inspections in total	1657

- **91** criminal charges has been submitted to the competent Prosecutors in this year, according to the field reports for unlicensed operations and they are in review procedure by the competent Courts;
- During **2018**, ICMM has prepared **93** Act decisions for Administrative fines related to unlicensed operations, by respecting applicable laws and legal norms;
- The ICMM during 2018 has verified if the conditions for issuance of execution proposals for execution were met for private executor, **116** Execution Proposals;
- Taking into consideration the changes that were made after the allocation of the initial budget, the approved or final budget of the ICMM for **2018** was **1,229,352.54 €**, while it is executed **1,197,002.98 €**, or **97.37%** of the final budget.
- The ICMM continued to fulfil the legal framework during 2018 by issuing 4 sub normative acts.
- The ICMM has continued as well during this period to coordinate activities with many other institutions for a better management of the mining sector, including all the Inspectorates of the Municipalities, the Ministry of Environment and Spatial Planning, the Police, the State Prosecutors and Courts of the country.
- A meeting of the ICMM with mining enterprises has been organised and held as well during 2018, in order to present them the rights and legal and procedure obligations in compliance with applications, licences and permits.
- Meetings of the ICMM with representatives of the US Embassy, British Embassy, Hungary Embassy, Canadian Embassy, World Bank,
- Meetings of the ICMM with the Minister of MED, representation of the ICMM in Inter-ministerial Committee, meetings with Prime Ministry for KEK problems and for Trepça.
- Participation of the ICMM in working groups for drafting the new Law on Mines and Minerals.
- Participation of the ICMM in working group in the German Government respectively in the Ministry of Finance and Ministry of Economy in order to find the opportunities of investments of the German Government in mining environmental projects, in projects to increase capacities of the ICMM inspectorate for more effective implementation of LMM, etc.

- Representation of Kosovo from ICMM in PDAC and NATO Forum, in Toronto of Canada and other meetings with Canadian mining enterprise.

1.3. Objectives

ICMM foresees to increase the efficiency and effectiveness of its duties and responsibilities by continuing the upgrade of internal control system and governance in general and specific objectives in particular:

- Implementation of mining legislation, policies and mining strategy;
- Licensing of mining enterprises in compliance with LMM, the mineral resources management plan, mining strategy and the sustainable utilization of mineral resources;
- Monitoring – inspection and also implementation of all Laws related to mining sector by the licensed enterprises and implementation of action plan to prevent and prohibit illegal operators;
- Attraction of investors through promotions of mining potential that Kosovo has and offers;
- Increase the level of transparency, communication and upgrade of information technology system in order to enable efficiently work in ICMM and provide services to investors, companies and citizens.
- Prevention and prohibitions of the informal economy in the mining field.

1.4. Analysis of the state in the country's mining sector

ACHIEVEMENTS, CHALLENGES AND THEIR ADDRESSING FOR THE DEVELOPMENT OF MINING SECTOR AS FOUNDATION OF ECONOMIC DEVELOPMENT

No matter that Kosovo has considerable reserves of metallic minerals, energy minerals, industrial and construction minerals known; it still didn't find the best way for their valorisation, especially metallic and energy minerals, which it must be a priority of our institutions that through concrete plans and favourable legal infrastructure to pave the way for the sustainable development of mining industry and through it to the economic development of country.

It constantly noted that the mining sector is one of the main sectors for sustainable economic development of country; hereupon despite some of the continuous achievement, this sector didn't still achieve to contribute desirably to the economic development of country.

We think that a sustainable development of mining sector can be achieved based on the potential that Kosovo has and relying on the best practises of countries that have this sector developed.

ICMM did a brief analysis for the achieved results, challenges and their solution/addressing for sustainable development.

Licenses for metallic minerals

No matter that the ICMC has issued **59** exploration licenses for metallic minerals, only **7** licenses are active for mining of metallic minerals.

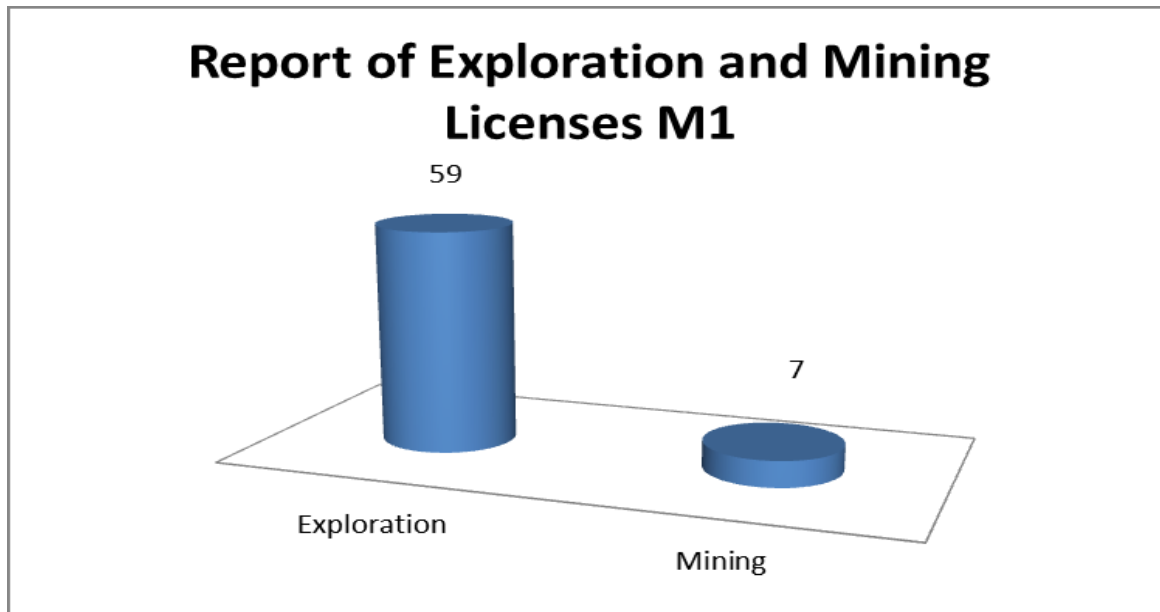

Figure 2. Report of exploration and mining licenses

Licenses for construction and industrial minerals

Unlike mining of metallic minerals, mining of construction and industrial minerals is increased with high dynamic relying on development of road infrastructure and building of the country. ICMC has issued **145** mining licenses of hard rock and **14** licenses for other industrial minerals such as: marl, clay etc. Trends are increasing for the moment as well for some years, this will change in the future since the needs of the country for these materials will be decreased, hereupon the possibilities to increase export of construction materials produced in Kosovo shall be taken into consideration in this field.

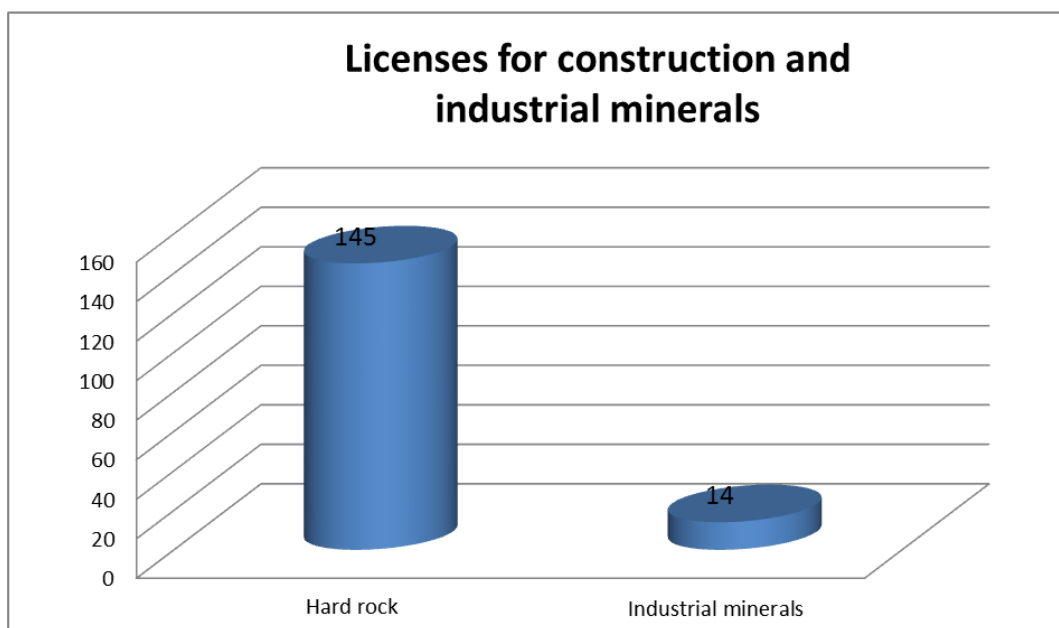

Figure 3. Number of licenses for construction and industrial minerals

Whatever it is, the mining sector in the Republic of Kosovo employs more than **13,400** employees. Revenues in **2018** are **26,024,451.05 €**.

We will present some of the main factors that are real challenges and they have direct impacts in creating stability of mining sector and as well in the sustainable development of mining sector:

1. Development of mines in enterprise Trepça JSC
2. Non-development of Special Zones of Interest declared by the Government
3. Non-development of energy minerals - lignite - lack of adequate legal basis to promote the use of this resource
4. Needs for long-term investment in exploration to discover new areas rich in metallic minerals.

1. Trepça JSC

As it is known, the undefined status of this enterprise has been a hindrance for its development. Now after the Law on Trepça has been approved, conditions have been created for the development of this enterprise respectively for Trepça mines. Hereby, it is recommended that without losing time to establish the governing bodies of the Enterprise, to make its concrete development plans and to start with investments in the Trepça mines, because this will directly impact the sustainable development of the sector as well as the growth of economic development, employment and revenues for the Republic of Kosovo.

2. Non-development of Special Zones of Interest declared by the Government

The Government of the Republic of Kosovo pursuant to the Law on Mines and Minerals has declared 11 Zones of Special Interest in 2008. The purpose of declaring these zones was to implement the competitive procedures and to find serious investors. These zones are the most prosperous zones for the development of mining sector, but despite the perspective they have, they have not yet started to be developed. This has happened as a result of distributed responsibilities by law, proceeding through inter-ministerial committees and PPP offices that in fact did not work.

Taking into consideration that there are serious companies interested in these zones, there is an immediate need to begin with their announcement in order to attract direct investments for the sustainable development of the mining sector.

3. Non-development of energy minerals - lignite

Lack of adequate legal basis to promote the use of this resource - The Law on Mines and Minerals foresees to issue licenses for energy minerals through a tendering procedure that it has resulted to be very bureaucratic and except issuance of licenses for lignite for production of electricity it has not been issued any other license for the use of energy minerals, despite the interest of companies to use this mineral for the purpose of processing and production of other products. The perspective to use lignite as well for other purposes shall be created without wasting time, as it is foreseen by the mining strategy of RKS.

4. Needs for long-term investment in exploration to discover new areas rich in metallic minerals

Large financial investments are required for long-term explorations to discover new metallic areas. We are witnesses that, it is considered a success today in the world if from 100 drillings carried out for exploration of new metallic deposits, one of them gives positive results. Except

achieving results in exploration, it is also necessary to spend a considerable period of time and to provide sustainable financial resources for exploring new metallic deposits in one zone. Initiatives to harmonize the Laws of other Sectors with the Law on Mines and Minerals is an immediate need to regulate it once, in order to not have unnecessary barriers regarding the extension term of licenses and their surface. Here we are dealing directly with collision of the Law on Forests with LMM.

1.5. The challenges in the future

Taking into account the rights and responsibilities specified in the LMM and other general rules on the one hand and undertaking activities to implement them in practice on the other hand, and when we add to this the concepts of development trends in this field, we can consider as a special challenge for the RKS institutions and as well for the ICMM. We can distinguish challenges to achieve the objectives set for the future as following:

- Increase the quality and safety at work in mining operations - Although the function of the mining sector in Kosovo is accompanied by good security, it still remains a challenge for the Mining Inspectorate to adopt and implement the technical and security standards applied in the EU countries with cooperation with the relevant institutions;
- Failure to treat on time the cases submitted to Courts. Penal sanctions imposed by the Courts are not reaching the effect to prevent the prohibition of illegal operations;
- Prevention and prohibition of illegal mining activities - One of the main challenges of the Mining Inspectorate as well for the next year will be the prevention of illegal operators in the mining sector and the sequestration of their means and minerals;
- Drafting and approval of the sub-normative acts necessary and indispensable for the implementation of the LMM;
- Continuous implementation of activities deriving from the implementation of the Mining Strategy and the Mineral Resource Management Plan;
- Continuous implementation of activities deriving from the implementation of mining policies.

2. LEGAL FRAMEWORK

2.1. Independent Commission for Mines and Minerals

ICMM is established pursuant to Regulation No. 2005/2 of 21 January 2005 as amended by Law No.03/L-081 on Amending Regulation No. 2005/2 of 13 June 2008, where it is designated as an Independent Agency in compliance with article 119, paragraph 5 and 142 of the Constitution of the Republic of Kosovo.

ICMM carries out its activity pursuant to the Law No. 03/L-163 on Mines and Minerals that it came into force on 27 August 2010 and it is amended and supplemented by Law No. 04/L-158 on Amending and Supplementing the Law on Mines and Minerals that it has been published in the Official Gazette on 28 March 2013 and the Law on Safety at Work in Mining Activity No. 05/L-062 issued on 2016.

The ICMM shall regulate mining activities in Kosovo in accordance with the law, the sub normative acts and the Mining Strategy, that it shall act in the public interest and independently exercises the powers and carry out the functions assigned to it by the LMM.

2.2. The sub normative acts issued by ICMM during 2018

Law No.04/L-158 on Amending and Supplementing the Law No. 03/L-163 on Mines and Minerals obliges the ICMM to issue sub normative acts – Administrative Instructions by which the specified issues are regulated more specifically.

Legal Department in cooperation with other ICMM Departments have prepared 4 Administrative Instructions in 2018, and they are published in the Official Gazette of the Republic of Kosovo.

The Administrative Instructions issued by ICMM during 2018 are presented in the following table.

Table 2: The sub normative acts issued by ICMM during 2018

Administrative Instructions 2018
ADMINISTRATIVE INSTRUCTION NO. 001/2018 - ON PROCEDURES OF DOCUMENTS CIRCULATION, THEIR SCANNING AND STORAGE - ELECTRONIC ARCHIVING
ADMINISTRATIVE INSTRUCTION NO. 002/2018 - ON PROCEDURES AND CRITERIA FOR ISSUANCE OF THE SPECIAL OPERATIONS PERMITS
ADMINISTRATIVE INSTRUCTION NO. 003/2018 - ON ADMINISTRATIVE FEES
ADMINISTRATIVE INSTRUCTION NO. 004/2018 - ON AGREEMENT, DEFERMENTS AND EXEMPTION OF THE ROYALTY PAYMENT

2.3. The difficulties faced by the ICMM during 2018

Many difficulties have accompanied the work and the activity of ICMM during 2018 which in certain cases they have complicated the work of this very important institution for the economy of Kosovo.

- Dis-harmonization of other laws with LMM. During the daily work on the implementation of legal provisions, the ICMM has faced difficulties in insurances and guarantees that LMM has foreseen for licensed enterprises, and later this matter is regulated also by internal acts – Administrative Instruction.

ICMM Inspectorate under article 70 of LMM is responsible for the **sequestration** of working means and commodities of illegal operators encountered in mining site.

We have encountered obstacles on this issue from the Agency for Administration of Sequestrated and Confiscated Assets, when the working means are sequestrated it has asked a special decision by the competent Court to accept the seized machineries. This issue is clarified in writing by the Chief State Prosecutor of Kosovo that there is no need for a special decision by the Courts, because the provisions of the LMM expressly indicate that the sequestration of means in illegal action cases is a competence of ICMM.

A problem is also the issue of the legal procedure development in the Courts leaving the cases become obsolete and enouncing inadequate measures in relation to the criminal offense committed, by sentencing with conditions for illegal actions, which does not have the right legal effect in many cases.

Dis-harmonization of the Law on Forests of Kosovo with LMM, because there are cases when the surface to be used, it is written in the copy plan and possession list that it is a mountain, whilst KFA is not the owner of parcel and however it is required the consent from KFA.

Also, KFA issues consents for the surface up to 5 hectares and duration of 5 years, whilst it is foreseen according to LMM that the duration of licenses for exploitation of construction minerals can be up to 25 years with possibility of extension also for another 25 other years, whereas for energy minerals up to 30 years with possibility of extension for other 15 years.

During 2018, the ICMM has made 91 criminal charges to the relevant Courts for enterprises or physical persons that they had their mining activity without licenses or permits from the ICMM.

During 2018, the ICMM has prepared 93 Act decisions for Administrative Fines related to unlicensed operations and sent to the appropriate addresses.

ICMM has verified during 2018 if the conditions to issue Proposals for execution to private bailiffs, hereupon 116 Proposals for Execution have been prepared and sent for execution that contain many act decisions for administrative fines.

The Review Appeal Commission of the ICMM held these hearings to review the appeals and requests from various parties addressed to the ICMM.

According to the data we have for 2018, their total number is 78 appeals and requests.

81 decisions on the appeals review have been prepared after the Board's decisions, which include some appeals by the end of 2017, which were prepared in 2018.

List of the criminal charges, administrative fines and proposals for execution for 2018 are attached as annexes in this report.

3. DESCRIPTION OF THE INSTITUTION

3.1. Vision

Creation of all institutional conditions through qualitative services, for the rapid growth of investment in the mining sector, strengthening human resource capacity, increasing community interest and ensuring environmental sustainability.

3.2. Mission

Exploration and exploitation of mineral resources, expansion and modernization of mining processing industry to ensure sustainable economic development, creation of new jobs and increasing welfare for the citizens of the Republic of Kosovo.

3.3. Scope of Independent Commission for Mines and Minerals

1. Independent Commission for Mines and Minerals - ICMM is an independent agency determined by the Constitution of the Republic of Kosovo.

2. The ICMM shall regulate mining activities in Kosovo in accordance with the Law on Mines and Minerals, the sub normative acts issued pursuant to the present Law and the Mining Strategy.

3. The ICMM shall act in the public interest and independently exercise the powers and carry out the functions assigned to it by the Law on Mines and Minerals.

4. It shall be a criminal violation of the law for any person to exert or to attempt to exert any political, administrative, financial or other influence over the ICMM, its staff or management personnel.

3.4. Powers and Responsibilities of the ICMM

1. The ICMM shall have the general authority and responsibility to ensure:

1.1. Legality on optimal exploration and exploitation of mineral resources at all mining operations in Kosovo;

1.2. The compliance of mining operations with the law, the sub normative acts issued pursuant to the law and the conditions and terms of licenses and permits issued by the ICMM, or consents issued as precondition for approval by the ICMM, pursuant to the law.

2. The ICMM shall have the competence to perform the following functions in accordance with the Law on Mines and Minerals:

2.1. the issuance, transfer, extension, suspension and revocation of Licenses and Permits;

2.2. the establishment and maintenance of a mining cadastre and a GIS database containing geographical data, geological data and other relevant economic data and all existing minerals titles and mining rights; and

2.3. The issuance of rules on the internal organization and operation of the ICMM.

3. The ICMM shall provide technical assistance to the Government in all matters related to mines and minerals in Kosovo when requested by the Government.

4. No Person may carry out any activities involving the exploration, mining and/or processing of a mineral resource or any other related activity without a license or permit issued by ICMM in accordance with the Law on Mines and Minerals;

5. ICMM shall issue the following Licenses and Permits subject to fulfilment of the requirements for the issuance of such Licenses and Permits in accordance with the Law on Mines and Minerals:

- 5.1. Exploration Licenses;
- 5.2. Retention Licenses,
- 5.3. Mining Licenses;
- 5.4. Permit to conduct Special Operations;
- 5.5. Artisanal Mining License;
- 5.6. Public Interest Licenses or Permits.

3.5. The main responsibilities for the management of mining activity in the ICMM

All powers of the ICMM shall be vested in the ICMM Board. Any decision required by the Law on Mines to be taken by the ICMM shall be taken by the ICMM Board, while the Director of the ICMM conducts the ordinary business of the ICMM and performs all functions delegated by the ICMM Board.

However, its efficient and effective functionality and execution of powers and responsibilities ICMM realizes through professional organizations by departmental levels. ICMM structure consists of main departments and departments or other supporting units for the duties and responsibilities of ICMM.

4. SCOPE THAT COVERS ICMM

4.1. Organization, activities, personnel and salary levels

ICMM has adjusted its organizational structure according to LMM and the Law No. 03/L-149 on Civil Service of the Republic of Kosovo.

4.2. Board

The ICMM shall be directed by a Board (the “ICMM Board”) comprised of five (5) members. All powers of the ICMM shall be vested in the Board. Any decision required by the law to be taken by the ICMM shall be taken by the ICMM Board. Mandates of all successors of initial members are five (5) years. The members of the Board do not have the status of the civil servant. The members of the Board during the performance of their duties and responsibilities according to present law will act exclusively in the public interest and in good faith. Members of the ICMM Board are appointed by the Assembly of the Republic of Kosovo.

The ICMM Board, except regular meetings, by the request of Director or any of the members of Board organizes as well additional meetings.

Director and other professional staff shall prepare and review applications for licenses and permits, then through the pre-board meetings it is done the selection of applications that meet the criteria to be forwarded to the Board, in accordance with applicable laws.

4.3. Executive

Director and Chief Inspector manages the executive part of the ICMM. The Director is responsible for all executive issues within ICMM, organizes Board meetings, prepares reports as required for Board meetings and deals with the implementation of decisions taken by the Board. Director has the mandate of 3 years whereas Chief Inspector has the mandate of 5 years in accordance with applicable legislation.

The middle management of ICMM are directors of departments and they are civil servants. Civil servants are employees with open-ended career according to the Law on Civil Service of the Republic of Kosovo.

4.4. Human Resources

77 positions are approved for ICMM for **2018** by the Law No. **06/L-020** on the Budget of the Republic of Kosovo. ICMM has managed to have 76 positions by the end of 2018. ICMM is analysing as well the possibility of reducing bureaucracy within it through a restructuring organisation process that it is underway.

ICMM has a qualified staff, as it can be seen in the following chart:

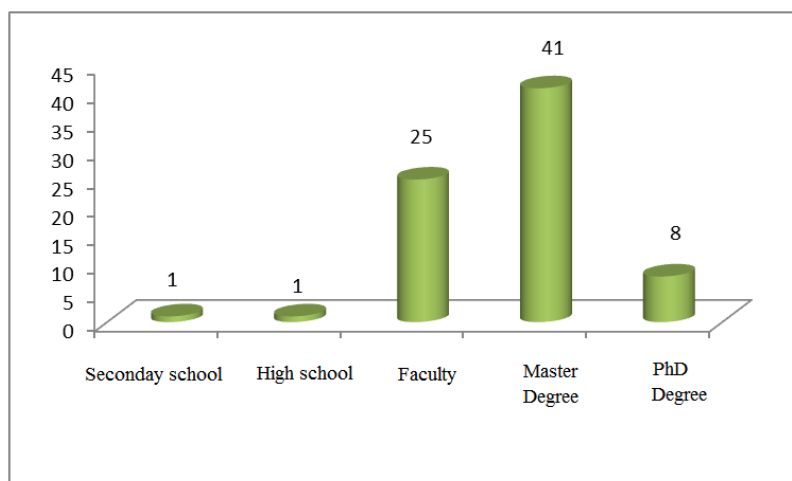

Figure 4. Graphical presentation of ICMM staff qualification

The organogram of ICMM is presented in the following figure:

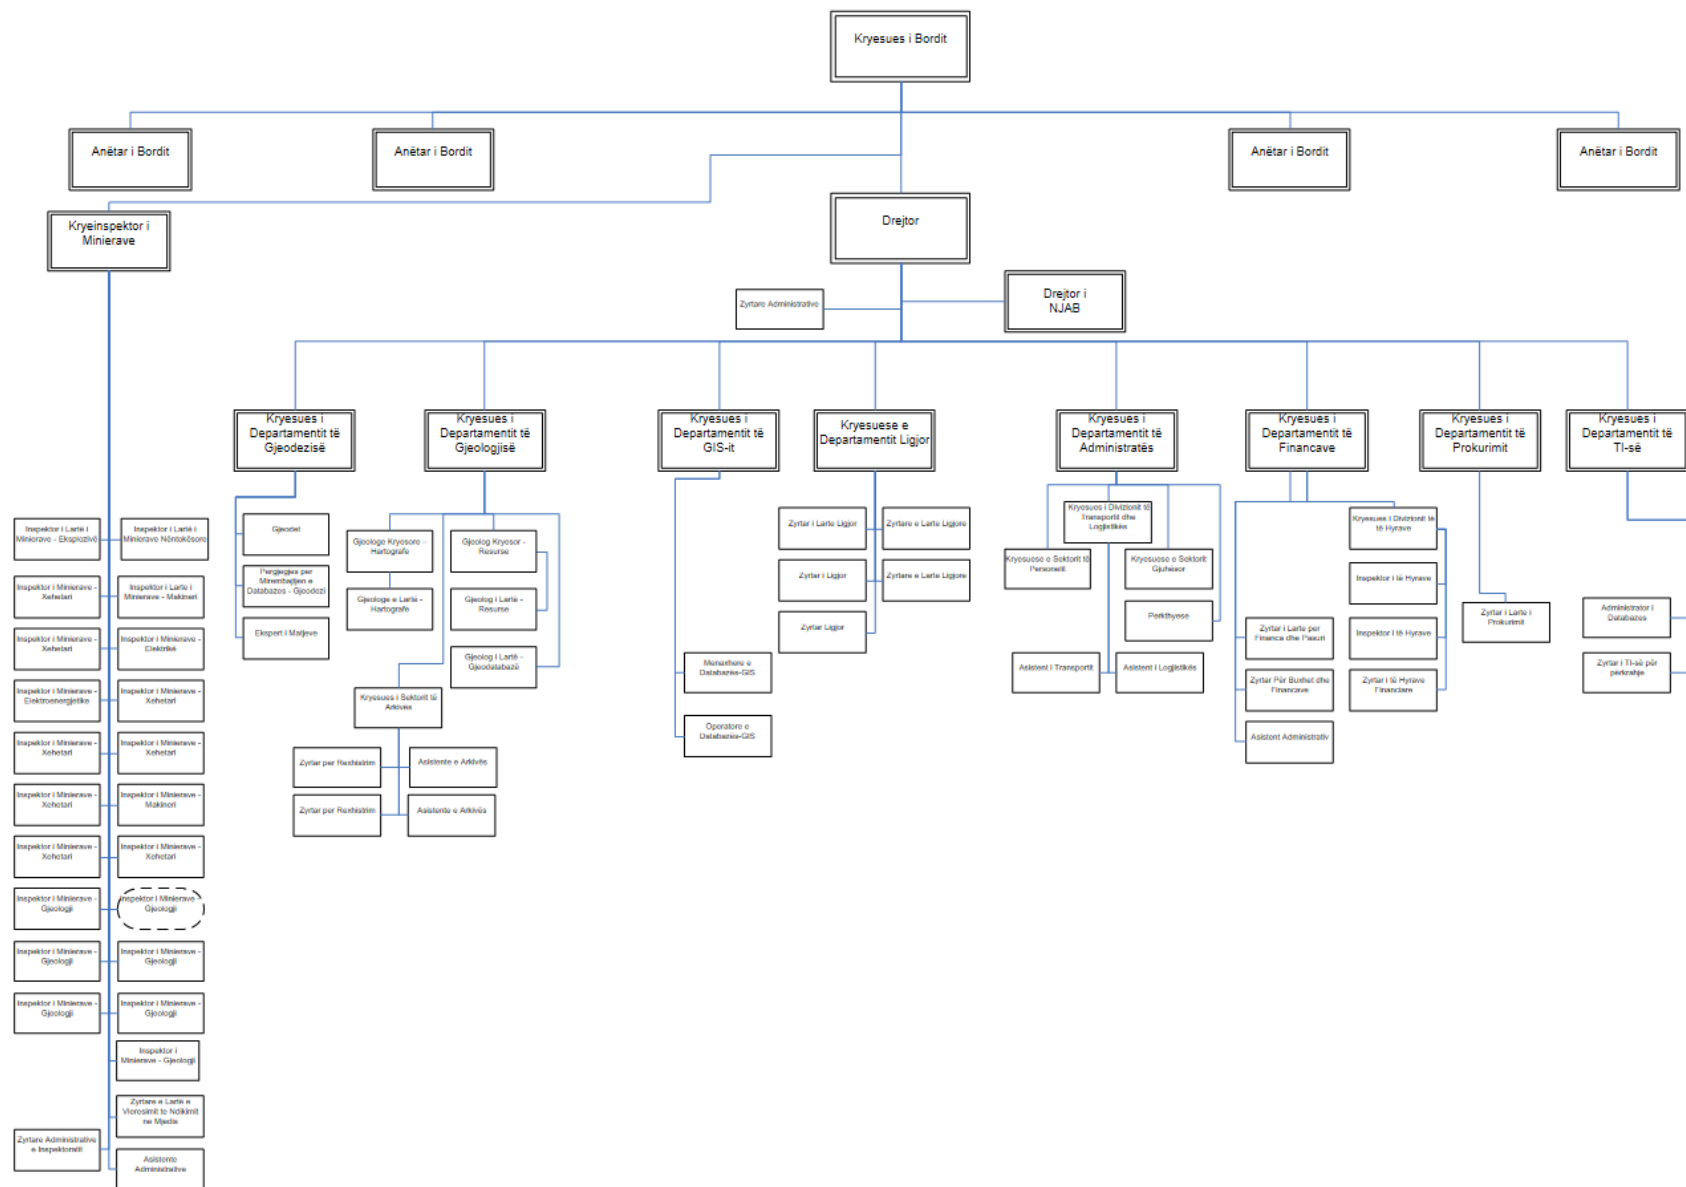

Figure 5. The organogram of ICMM

The salaries level of the ICMM staff is defined by the applicable legislation. The members of Board are professional appointees, and their salaries are set by the Assembly of the Republic of Kosovo. Director and other executive staff are civil servants and their salaries are set by legislation for civil servants (with coefficients). Due to the specific nature of the ICMM work, except basic salary, MF and the Assembly of Kosovo have approved the allowances to salaries of ICMM staff according to specifications for the work position.

A number of ICMM employees participated in training both in the country and abroad during 2018. A number of trainings are organized by KIPA, but some of the trainings are organized by other institutions in the country and abroad.

The details of the trainings of ICMM staff carried out during 2018 are presented in the following table:

Table 3: Participation of the ICMM Staff in trainings during 2018

Training Provider	Type of training	Number of participants	Place	Duration
BKC	Training - Management of the Law on Occupational Safety and Health	7	Prishtina	3 days
IKT	Training in the Penal, Civil and Administrative Areas	1	Prishtina	11 days
FLSA	Training – The Importance of Human Resources in Strategic Budget Management and Procurement	1	Croatia	9 days
Field - Albania	Professional training of geologists	5	Albania	6 days
E&E Consulting	Training –Personnel Management and Conflict Resolution	4	Montenegro	4 days
ADA Consulting	Training –Archive Management	1	Albania	4 days
IKAF	Training in Accounting	5	Prishtina	ongoing
Prudenca	Training –Administration Management and Conflict Resolution	1	Montenegro	4 days
SEMOS	Training – Information Technology	1	Macedonia	5 days
ADA Consulting	Training –Execution of Administrative Acts	6	Macedonia	4 days

4.5. ICMM assets

The ICMM to carry out its activities has in possession a large number of functional assets such as:

- Geoscientific information
- Geo-database of Kosovo
- Advanced hardware and software
- Logistics equipment (vehicles, etc.).

4.6. ICMM's location and physical space of the building

ICMM's premise is located at Sunny Hill in the street Armend Daci No. 1 in Prishtina. The location map of the ICMM's premise is shown below

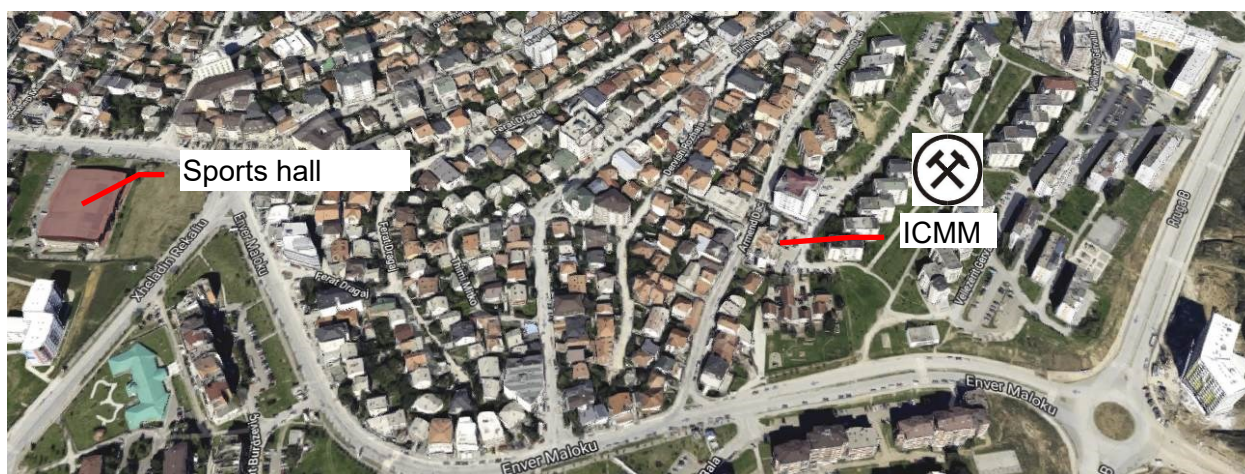

Figure 6. ICMM location

In the absence of the permanent premise, the ICMM is obliged to rent a private building with surface of **1816 m²**.

Although ICMM has addressed many times a request to the relevant institutions to be placed on the premises of public institutions, it doesn't have a solution yet, hereupon ICMM remains in private buildings with rent since 2004.

It is worth mentioning that during 2010-2018, ICMM spent the amount of **629,472.46 €** from Kosovo Budget for rent office space, where during 2018 ICMM spent **86,071.13 €** for the rent of offices.

A cooperation agreement was signed during 2017 between MPA-MESP-ICMM to start building a joint office building for MESP and ICMM. The Procurement procedure to build the premises is in final stage and it is expected to start soon the building of premises.

5. ACTIVITIES FOR THE REPORTING PERIOD

5.1. Review of applications for licenses and permits

ICMM Board in the meetings held during 2018, except applications received during **2017** has reviewed as well the applications received in previous years.

ICMM during **2018** has received **270** applications for exploration and mining licenses and applications for special operations permits, among them:

- Applications for Exploration Licences – **111**
- Applications for Mining Licences – **51**
- Applications for Special Operation Permits **108** (**57** sorting plants, **42** concrete base, **9** asphalt base)
- And also it has reviewed **78** appeals and requests of enterprises or physical persons

The number of applications received according to months during **2018** is presented in the following chart:

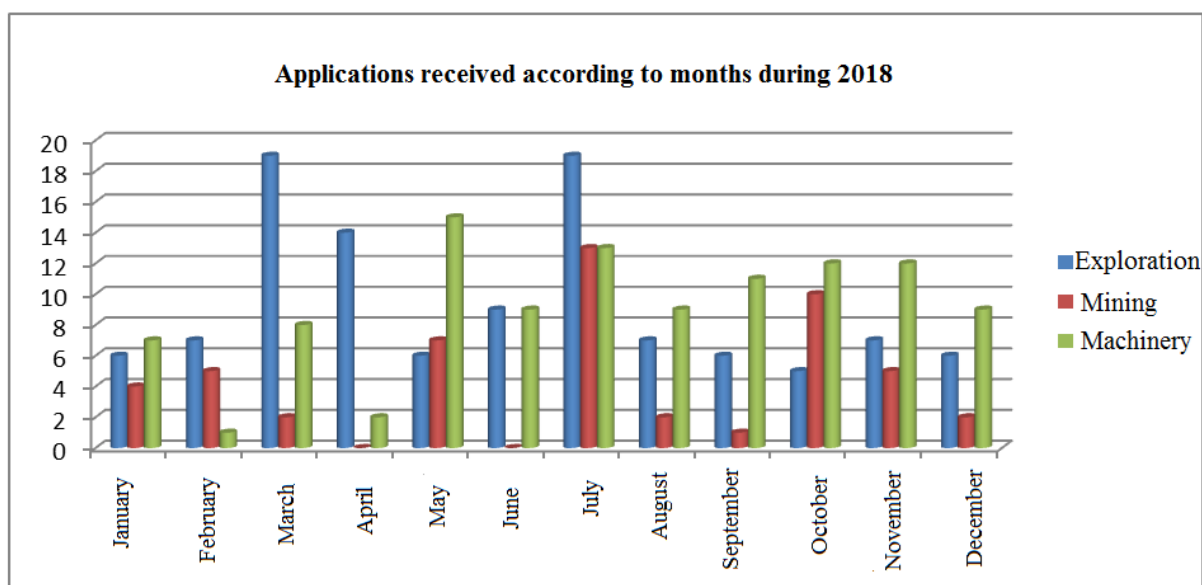

Figure 7. Receipt of applications according to months

The number of applications received during 2014-2018 is presented in the following chart:

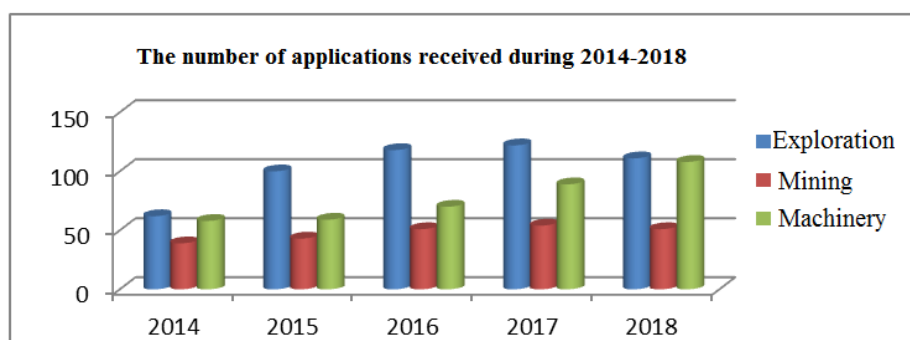

Figure 8. The number of applications received during 2014-2018

After processing all of the abovementioned applications under the procedures foreseen by the applicable legislation, **218** Licenses and Permits for Special Operations have been issued. From them: **97** Exploration Licenses and **39** Mining Licenses, and **82** Special Operations Permits (8 asphalt bases, 33 concrete bases, 41 sorting plants) - see following table. So, during **2018**, ICMM Board has reviewed a total of **354** applications - **179** were applications for exploration, **72** applications for mining and **103** applications for special operations.

The number of licenses and permits issued during **2014-2018** is presented in the following chart:

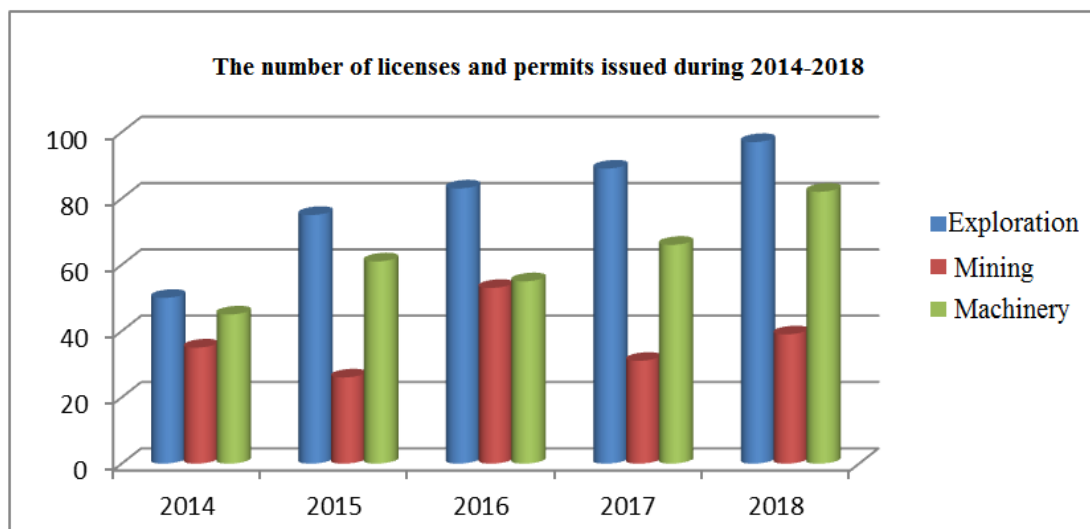

Figure 9. The number of licenses and permits issued during 2014-2018

Table 4: Licenses/ permits issued for 2018

Ordinal No.	Licence type	Number of issued licenses
1	Exploration Licenses	97
2	Mining Licenses	39
3	Special Operation Permits	82
	Total	218

The difference between applications and licenses approved is that all applications for licenses and Special Operations Permits did not meet the legal requirements to be licensed.

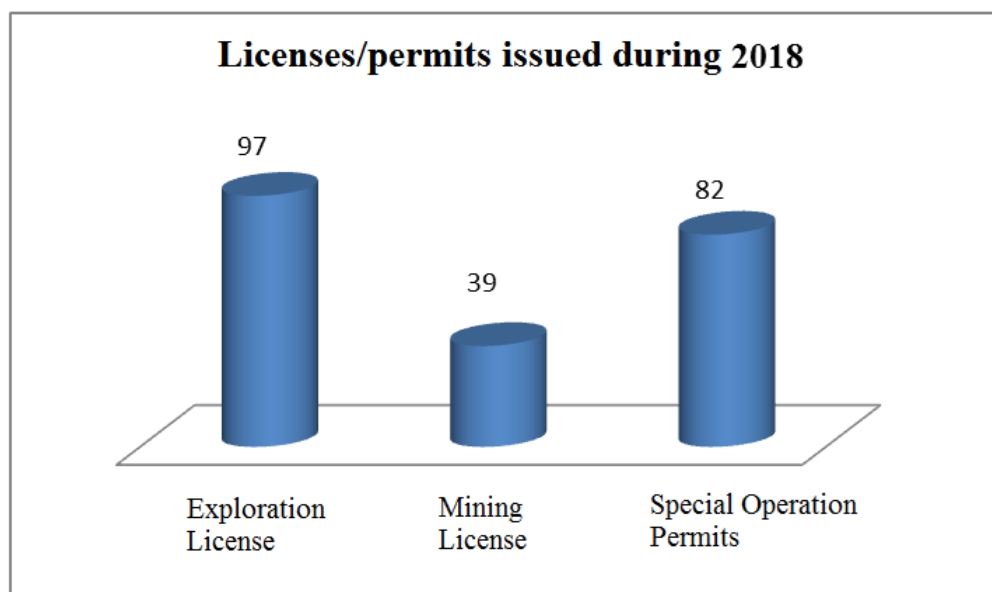

Figure 10. Licenses/permits issued during 2018

5.1.1. Licenses for geological exploration (research-exploration)

“Exploration License” means the official written authorization issued by the ICMM under Part III of the LMM.

An exploration license for construction minerals shall have a term of no more than 2 years. It applies to an area no larger than 50 ha. It is extendable as well for a maximum of 2 additional years.

Exploration licenses for all other minerals shall be issued with a term of no more than 3 years. It applies to an area no larger than 100 km², it may be extended up to 2 times, where each extension cannot be longer than 2 years; in case of each extension the exploration area will be reduced for 50%.

No enterprise shall hold multiple exploration licenses for construction minerals covering, in the aggregate, more than 10 km², while it shall not hold multiple licenses for other minerals covering, in the aggregate, more than 300 km².

Number of the exploration licenses issued by ICMM during 2018 according to commodities is presented in the following table:

Table 5: Number of the exploration licenses by types of commodity

Type of commodity	No.
K-2 - hard rock	61
M-1 - Metallic Minerals	21
M-2 - Industrial Material	6
K-3 - sand and gravel	7
Coal & bitumen	2
Total	97

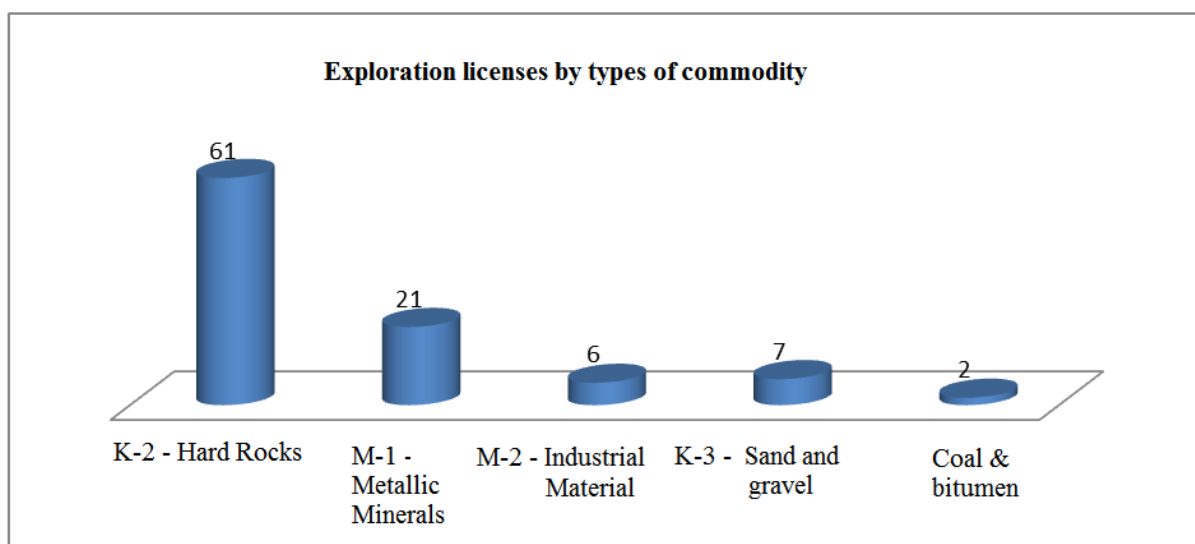

Figure 11. Number of exploration licenses by types of commodity

The ICMM Board, pursuant to article 59.1 and article 62 of LMM, after reviewing the applications in accordance with the law, has rejected some of the applications for exploration licensing for non-fulfilment of legal conditions. The decision on the reasons for refusal was sent to all enterprises.

The number of refused applications for exploration by types of commodity is presented in the following table:

Table 6: Number of refused applications for exploration by types of commodity

Type of commodity	Licences No.
Hard rock	10
Sand and gravel	3
Industrial Material	1
Metallic Minerals	5
Total	19

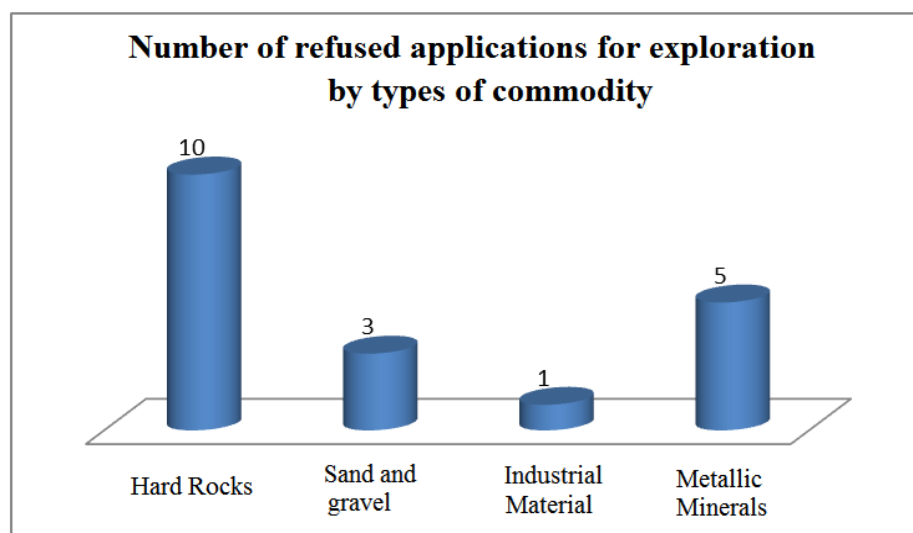

Figure 12. Number of refused applications for exploration by types of commodity

5.1.2. Mining licenses

“Mining License” means a license issued by the ICMM under Part V of LMM. A Mining License for all minerals other than energy minerals can be issued with a maximum term of no more than 25 years with a possibility of extension of a maximum duration of 25 years. Mining licenses for energy minerals shall have a maximum term of no more than 30 years with a possibility of extension for an additional period of 15 years.

A time period for a mining license is determined by the exploitable reserves, mining project and by the dynamics of mining.

All mining licenses issued by ICMM during 2018 are presented in the following table.

The number of mining licenses by types of commodity issued by ICMM during 2018 is presented in the following table:

Table 7: Number of mining licenses by types of commodity

Type of commodity	Licences No.
Hard rock	31
Industrial Material	1
Metallic Minerals	2
Sand and gravel	5
Total	39

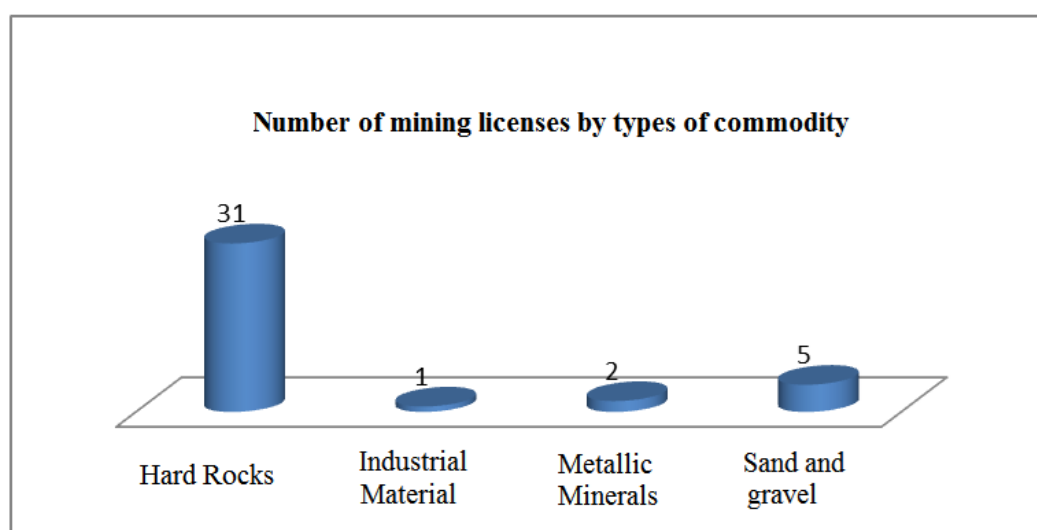

Figure 13. Number of mining licenses by types of commodity

The ICMM, pursuant to article 59.1 and article 62 of LMM, after reviewing the applications in accordance with the law, has rejected some of the applications for licensing for non-fulfilment of legal conditions. The ICMM has refused in total **30** applications, for them **19** were applications for exploration licence and **11** applications for mining licence. The decision on the reasons for refusal was sent to all enterprises.

5.1.3. Special Operation Permits

“Special Operation Permit” means a permit issued by the ICMM under Part VI of LMM. The term and scope of each Permit shall be reasonably established by the ICMM in a manner that is reasonably, directly and rationally related to the conduct of the special operations authorized by such permit.

In the group of Special Operations Permits are included:

- (a) Permit to use explosives for the mining sector’s needs,
- (b) Work permit in mining:
 - Use or function of machineries and equipment or
- (c) Permit to process raw material:
 - Use or function of machineries or equipment (quarry with sorting plant, concrete base and asphalt base),
 - Use of chemicals or other reagents.

The number of all permits issued in 2018 for Special Operations Permits and its comparison in charts is presented in the following table and chart:

Table 8: List of the permits issued for 2018 for Special Operation Permits

Machinery type	No.
Sorting plant	41
Concrete base	33
Asphalt base	8
Total	82

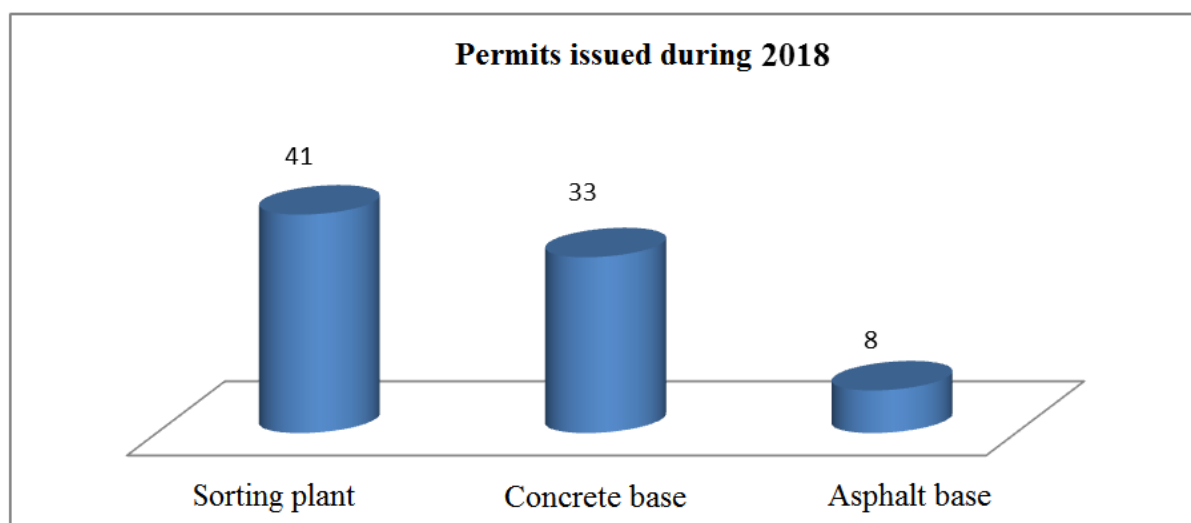

Figure 14. Chart of the permits issued during 2018

The ICMM, pursuant to article 59.1 and article 62 of LMM, after reviewing the applications in accordance with the law for non-fulfilment of legal conditions, has rejected 14 applications for Special Operations Permits. The decision on the reasons for refusal was sent to all enterprises.

5.2. Importance of the mining resources for the country

The Republic of Kosovo is rich with mineral resources; energy and polly metallic resources present important potentials for the overall development. There can be distinguished lignite, minerals of lead, zinc, silver and gold, silicate minerals of nickel and cobalt, iron - nickel, bauxite, manganese, magnesite etc. Rational use and properly management of these resources can ensure the support for economic development and to create new jobs by improving evidently as well economic state.

Also the use of renewable resources such as: water resources, wind energy, solar energy, investments in energy efficiency as well recyclable materials, would contribute in the overall development of the country and at the same time also in the protection of non-renewable natural resources and can meet a part of requirements.

Currently, these commodities are mainly being used in recent years in one form or another from many of the commodities that Kosovo possesses:

- Metallic minerals (Pb-Zn-Ag, Au, Ni-Co, Cr),
- Energy minerals (Lignite),
- Non-metallic minerals (andesite, limestone, basalt, dunite, schist, sand and gravel, silica sand, marl, clay, etc.),

All exploitable commodities such as magnesite, bauxite etc. are still not being used due to many different problems.

5.3. Analysis of realisation of commodity production

Most of enterprises dealing with the exploitation of hard rock, sand and gravel are not achieving to fulfil their production planning in 2018 and as well in previous years. It can be concluded from analyses that the main reasons that some enterprises fail are: the realisation of production for 2018 for Q₁, Q₂, Q₃ and Q₄, can have some small changes on annual reporting.

- Unreal planning of enterprises related to exploitation and processing of commodity
- Lack of the capital of enterprises to invest in the exploration stage to avoid the failure in the exploitation stage because of the poor quality of mineral
- Illegal mining activities, etc.

5.3.1. Realisation of production for energy minerals

Coal (lignite) as energy mineral is the most important resource of Kosovo, because the supply with electricity depends almost entirely from this commodity. The estimated coal resources in the whole Kosovo are about 12.5 billion tons, which economically it is considered an advantage to be used. Only “Kosovo Energy Corporation – KEK” is actually licensed by the ICMM for exploitation of energy minerals, that it does surface exploitation of lignite for production of electricity in the country.

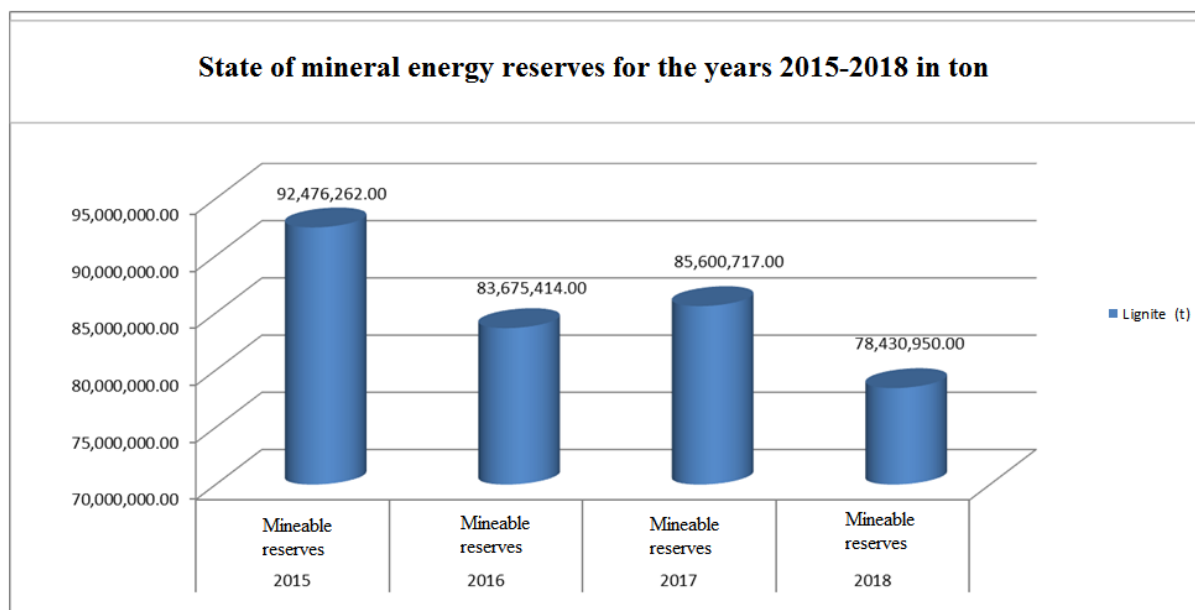

Figure 15. Diagram of the state of mineable energy reserves during 2015-2018

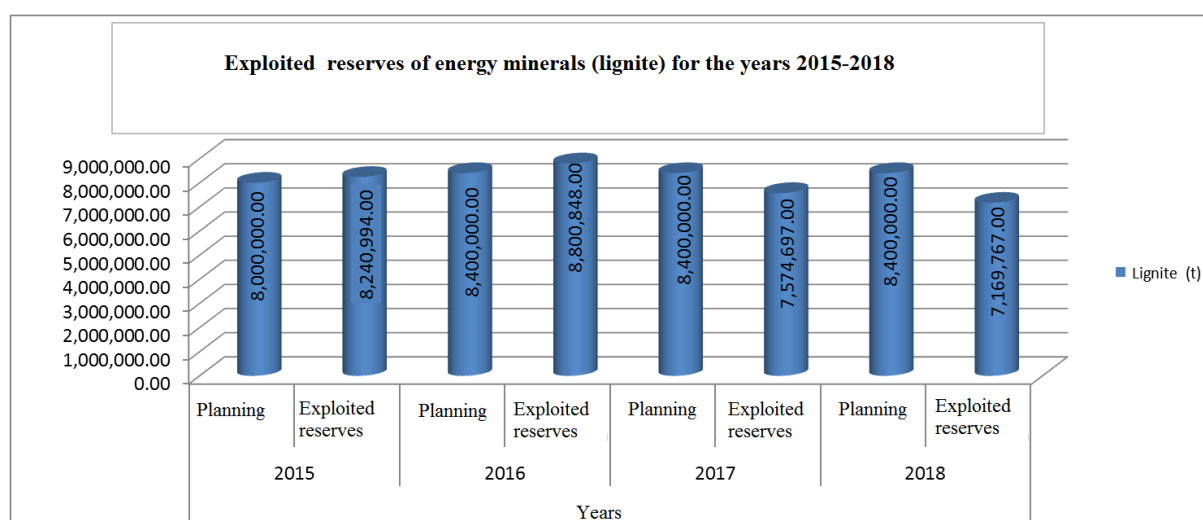

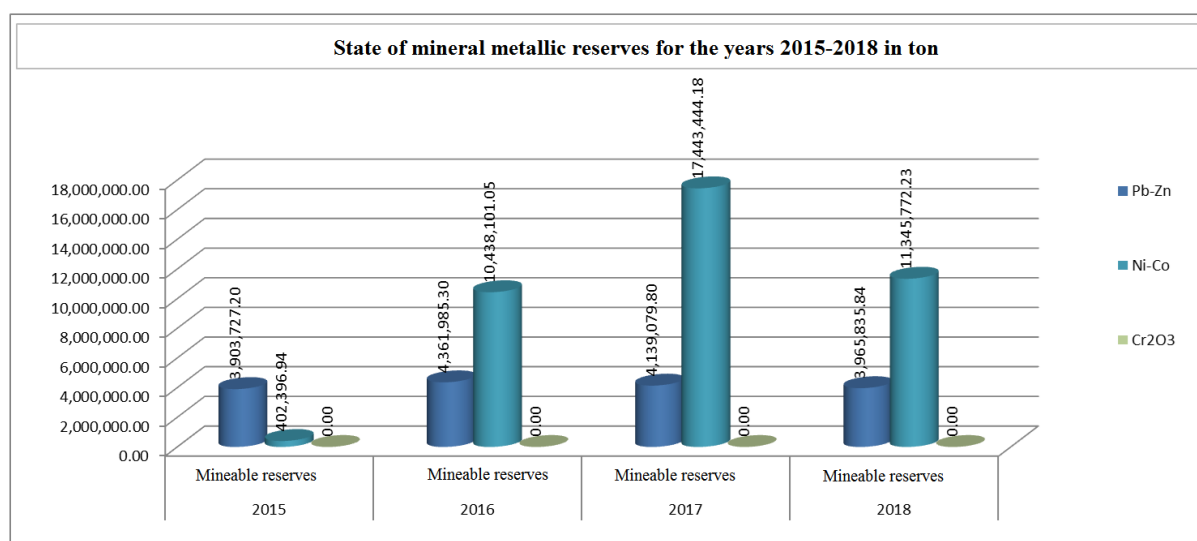

Figure 16. Diagram of the state of exploited energy reserves (lignite) during 2015-2018

5.3.2. Realisation of production for metallic minerals

The exploitation of metallic minerals has not been done according to the planning foreseen by enterprises in this year like in the previous years for many reasons, some of them have been above mentioned in the analyses of mining sector.

Table 9: State of mineral metallic reserves in licensed deposits during 2015-2018

Commodity	Description	2015 Quantity in ton	Realisation Planning /Exploitation in %	2016 Quantity in ton	Realisation Planning /Exploitation in %	2017 Quantity in ton	Realisation Planning /Exploitation in %	2018 Quantity in ton	Realisation Planning /Exploitation in %
Pb-Zn	Mineable reserves	3,903,727.20	43.31	4,361,985.30	71.96	4,139,079.80	63.80	3,965,835.84	49.59

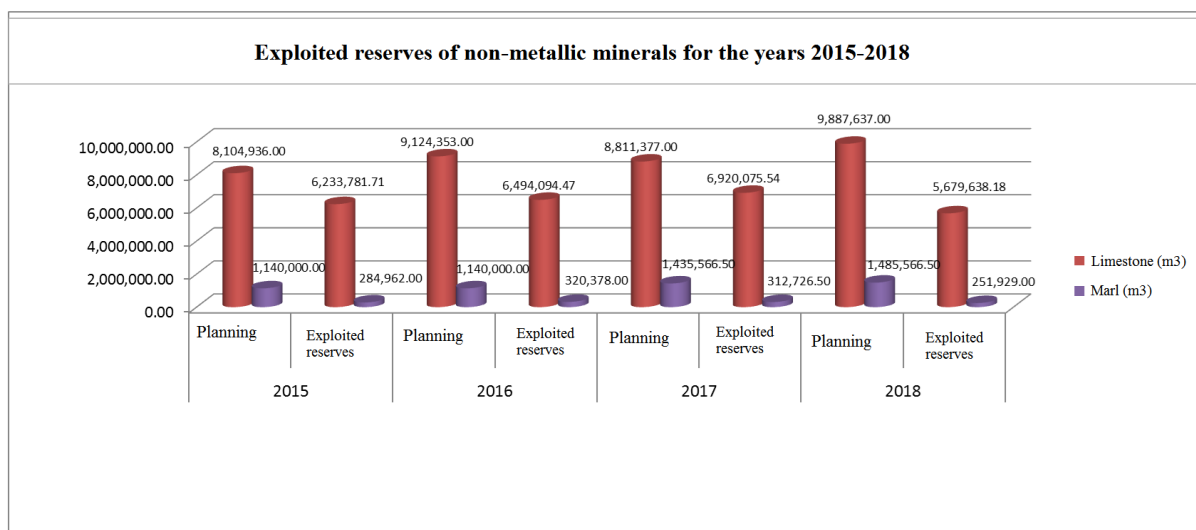

Figure 22. Diagram of the exploited reserves of non-metallic minerals (limestone, marl) during 2015-2018

5.4. Activities of reclamation and closure of mines / quarries in 2018

20 applications in total for the closure of the mining licenses have been reviewed during 2018 based on the decision 496/2017 and 3667/18. Pursuant to article 63 paragraph 3 point 1 and 2 of LMM, ICM in cooperation with MESP and KFA, after expiration stage of licenses has done the reclamation of the licenses zones.

Table 11: Reclamation and closure of mines / quarries during 2018

Purpose	Ordinal No	Name of enterprise	Type of Resource	Location	Municipality	Surface m ²
Re-cultivation with closure	1	ARSI Sh.p.k. Branch in Kosovo	Metallic Mineral	LLapçevë	Rahovec	45765
	2	Dreoni	Sand and gravel	Drenovc	Klinë	4523.301
	3	Ermali	Sorting plant	Junik	Deqan	1406.826

The reclamation fields in former mines/quarries are presented in the following photos:

Figure 23. Reclamation fields in former mines/quarries

5.5. Planning and needs for 2018 – according to commodities

Mineral resources management is an integrated activity that identifies, estimates and ensures an optimal exploitation plan of mineral resources, to produce a qualitative product that satisfies/ fulfils/ objectives of business of enterprises but as well the consumers' requests in a dynamic environment.

5.5.1. Analysis of problems in annual planning in mining sector

Analysing the needs and planning for the following years are done by taking into consideration the trend of exploitation of the four previous years 2015-2018.

The main difficulties are noticed in organisation respectively the weak structure of the enterprise followed by the development and financial inconsistency. So the management of enterprises is still not in the appropriate level.

Exceptionally, as stated above, there are also enterprises that have realization at the level of annual production planning, where "KEK" can be taken an example.

5.6. Planning of production for energy minerals

Table of planning and exploitation of energy minerals (lignite) for the years 2015-2018 with purpose of extraction of planning of exploitation for the year 2019 is presented below:

Table 12: Planning of exploitation of mineral energy reserves for the year 2019

Table of planning and exploitation of mineral energy reserves for the years 2015 – 2019						
Commodity	Activity	Year				
		2015	2016	2017	2018	2019
Lignite (t)	Planning	8,000,000.00	8,400,000.00	8,400,000.00	8,400,000.00	7,800,000.00
	Exploited reserves	8,240,994.00	8,800,848.00	7,574,697.00	8,240,994.00	

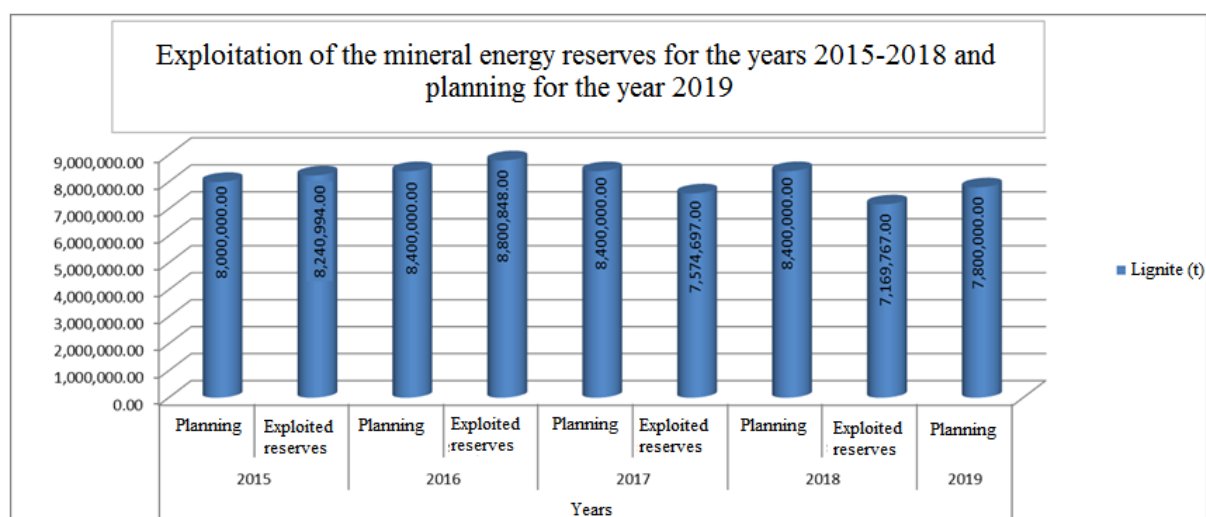

Figure 23. Diagram of the planning of exploitation of mineral energy reserves (lignite) for the year 2019 based on the years 2015-2018

5.7. Planning of production for metallic minerals

Table of planning and exploitation of metallic minerals for the years 2015-2018 with purpose of extraction of planning of exploitation for the year 2019 is presented below:

Table 13: Planning of exploitation of mineral metallic reserves for the year 2019

Table of exploitation of mineral metallic reserves for the years 2015 - 2018 and planning for the year 2019						
Commodity	Description	Year				
		2015	2016	2017	2018	2019

5.9. Summary of planning according to groups of commodities

Planning of production according to groups of commodities is presented briefly in the following tables

Table 15: Planning of production of energy minerals for the year 2019

Planning of exploitation for the year 2019 Energy minerals		
Commodity	Planning	Unit
Lignite	7,800,000.00	t

Table 16: Planning of production of metallic minerals for the year 2019

Planning of production for 2019 Metallic minerals according to the type of deposits				
Commodity	Planning (t)	Content of metal in %		
		Pb	Zn	Ag (g/t)
Pb-Zn	190,000.00	2.95%	2.91%	36.34
Ni-Co	Planning (t)	Ni	Co	---
	480,000.00	1.08%	0.03%	---
Cr ₂ O ₃	Planning (t)	---	---	---
	0.00	---	---	---

Table 17: Planning of production of non-metallic minerals for the year 2019

Planning of production for 2017 Industrial-construction minerals		
Commodity	Planning	Unit
Andesite	120,000.00	m ³
Clay	460,000.00	t
Limestone	5,800,000.00	m ³
Basalt	1,600.00	m ³
Sand and gravel	19,500.00	m ³
Quartzite sand	26,000.00	m ³
Dunite	45,000.00	m ³
Marl	270,000.00	m ³
Schist	1,500.00	m ³
Marble	1,400.00	m ³
Gabbro	1,600.00	m ³

5.10. Inspection and monitoring of mining activities

Inspectorate of Mines shall have the general authority to inspect exploration, mining and special operations being conducted by any person to determine:

1.1. whether the person conducting such activities holds a License or Permit issued by the ICMM;

1.2. if the person does hold such a License or Permit, whether the activities are being conducted in conformity with the concerned License or Permit and the safety and environmental implementing regulations issued by the Minister pursuant to LMM.

5.10.1. Development of mining activities in KEK

Kosovo Energy Corporation operates for exploitation of lignite in open pit with License No. 1652/ICMM/2017 with the term until 10.11.2018, then after problems it has during expropriation it is in fulfilling the conditions to take the licence.

Planning and realization of coal for January – December 2018 (in ton)

KEK has planned during 2018 to exploit-extract coal in the quantity of 7,400,000 tons while the realization is done in the quantity of 7,169,767 tons or in percentage of 96,89%. Coal is extracted from the new mine “Sibovc South West”.

Table 178: Planning and realization of extraction of coal for January – December 2018 (ton)

	Planning	Realization
JANUARY	650,000.00	647,605.00
FEBRUARY	600,000.00	605,659.00
MARCH	650,000.00	726,760.00
APRIL	650,000.00	635,734.00
MAY	650,000.00	451,074.00
JUNE	550,000.00	549,261.00
JULY	520,000.00	420,882.00
AUGUST	620,000.00	646,784.00
SEPTEMBER	610,000.00	557,626.00
OCTOBER	650,000.00	691,794.00
NOVEMBER	650,000.00	632,030.00
DECEMBER	600,000.00	604,558.00
Total	7,400,000.00	7,169,767.00

The data on planning and realization of coal for January – December 2018 are presented as well in the chart below:

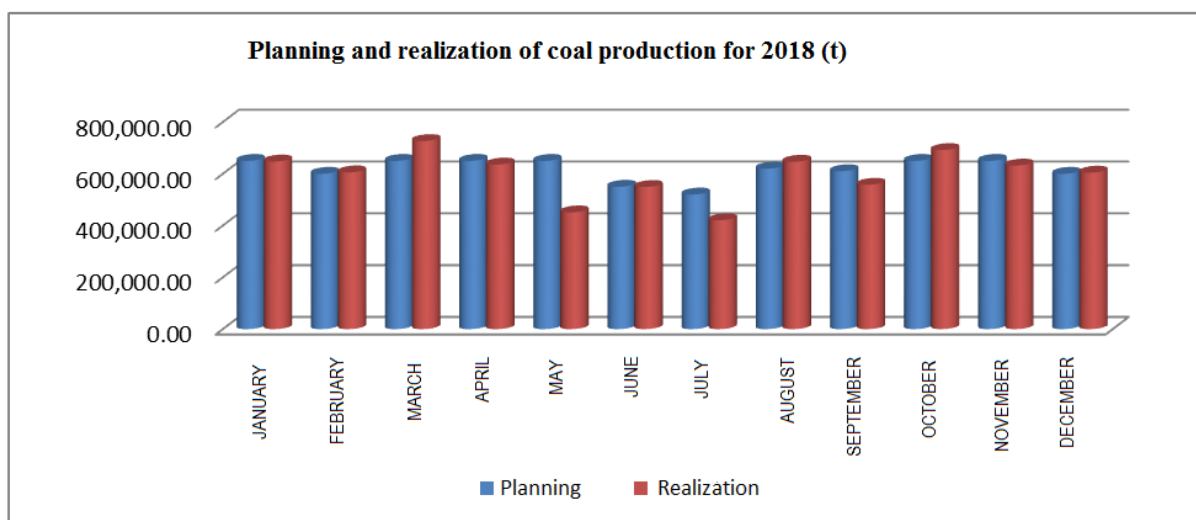

Figure 27. Planning and realization of coal for 2018 (in ton)

KEK has planned during 2018 overburden removal in the quantity of 12,205,000.00 m³ while the realization is done in the quantity of 9,982,348.00m³ or percentage of 81,8%.

After the completion of the quite complicated expropriation process, the overburden process is in the process of improvement and it is getting normalized and achieving planning of coal discovery.

Planning and realization of overburden for January – December 2018(in cubic meter m^3) is presented in the following table:

Table 18: Planning and realization of overburden for January – December 2018 (m^3)

	Planning	Realization
JANUARY	755,000.00	738,644.00
FEBRUARY	780,000.00	678,203.00
MARCH	820,000.00	573,170.00
APRIL	980,000.00	557,356.00
MAY	975,000.00	992,095.00
JUNE	895,000.00	782,009.00
JULY	1,180,000.00	768,809.00
AUGUST	1,350,000.00	795,597.00
SEPTEMBER	1,350,000.00	1,012,092.00
OCTOBER	970,000.00	1,220,837.00
NOVEMBER	1,040,000.00	1,079,731.00
DECEMBER	1,110,000.00	783,805.00
Total	12,205,000.00	9,982,348.00

The data on planning and realization of overburden for January – December 2018 are presented as well in the chart below:

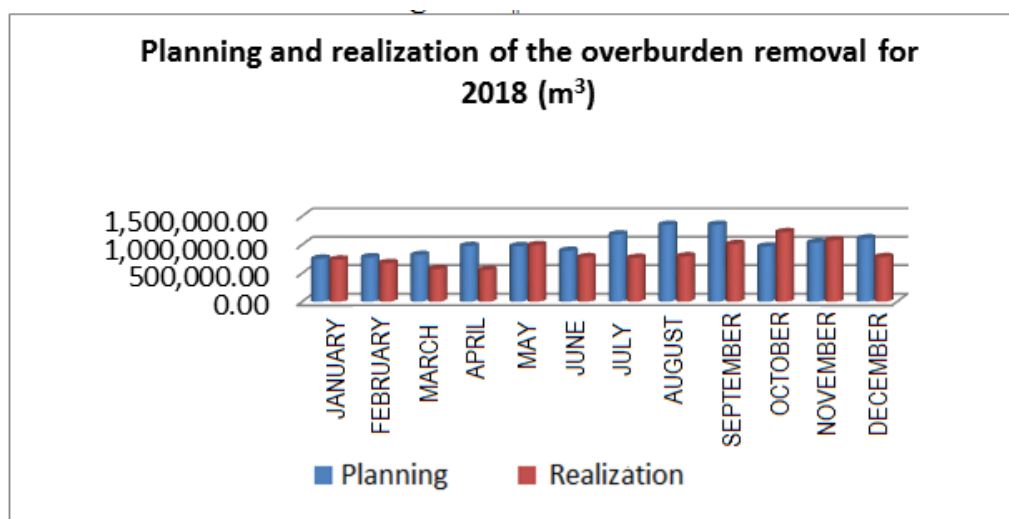

Figure 289. Planning and realization of overburden (m^3)

5.10.2. Explosives quantity used during 2018

Total explosives quantity spent for underground mines in 2018 is:

$$Q=214,573,40 \text{ (kg)},$$

and explosives quantity spent for surface mines is:

$$Q=2,812,989.00 \text{ (kg)}$$

And as a conclusion, the quantity of volumetric mass blasted in surface mines is:

$$V=5,635,298.33 \text{ (} m^3 \text{)}$$

and specific consumption for m^3 is:

$$q=0.49 \text{ (kg/m}^3 \text{)}$$

5.10.3. Injury report

Injury report in KEK-CPD

KEK has a detailed monthly, quarterly and yearly data of the accidents at work by Divisions that have been reduced for the Coal Division, and we will summarize them in the following table, as it is foreseen by article 10 paragraph 3 of the Law on Safety at work in mining activity.

Table 19: Report on injuries for the period 2013-2018

2013	2014	2015	2016	2017	2018
44	18	18	17	6	11

Luckily, there were no accidents cases of employees with fatal consequences during 2018 on industrial security and emergencies. Number of injuries reported for 2018 in Coal Production Division (CPD) is 11 compared with 2017 where the number of injuries was 6, number of injuries for this year has been increased as well for 5 cases.

Comparison of injury report in three years is presented by diagram

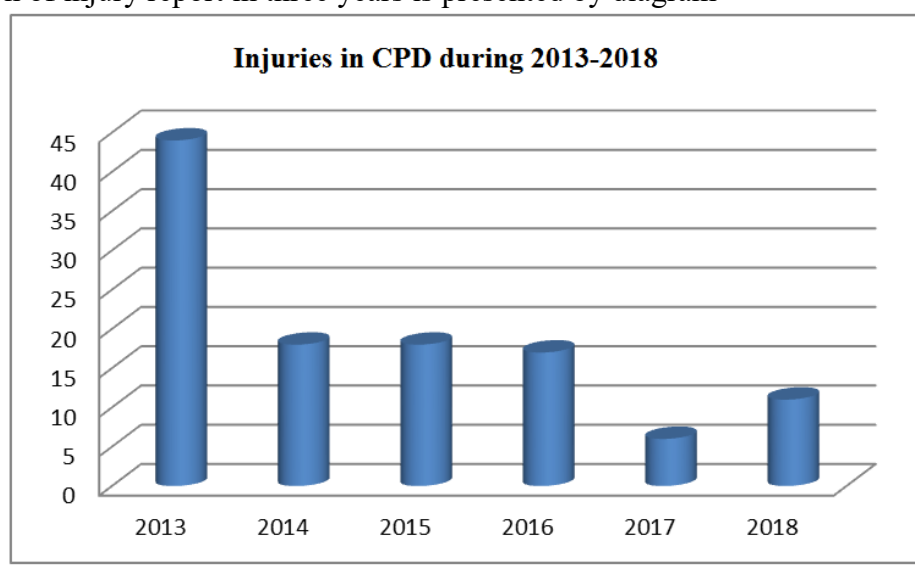

Figure 29. Injury report for the period 2013-2018

It can be seen from this chart that we have an increase in the number of injuries and as well with fatality, and this is represented with very hard work conditions in the field. It is advised that the management staff and as well workers to have trainings in continuation by doing as well their verification related to the performed training.

Injury report in Trepça mines

There was no accident with fatality in the underground mines of Trepça during 2018.

5 cases in total of major injuries have happened.

Minor injuries happened during 2018 were 76 injuries.

The tables of accidents - injuries at work during 2015, 2016, 2017 and 2018 are presented below:

Table 21: Accidents - injuries at work in the mines during 2015, 2016, 2017 and 2018 according to injuries

	Year 2015	Year 2016	Year 2017	Year 2018
Fatality	0	0	0	0
Collective injury	0	0	0	0
Major injury	4	3	0	5
Minor injury	72	61	70	76

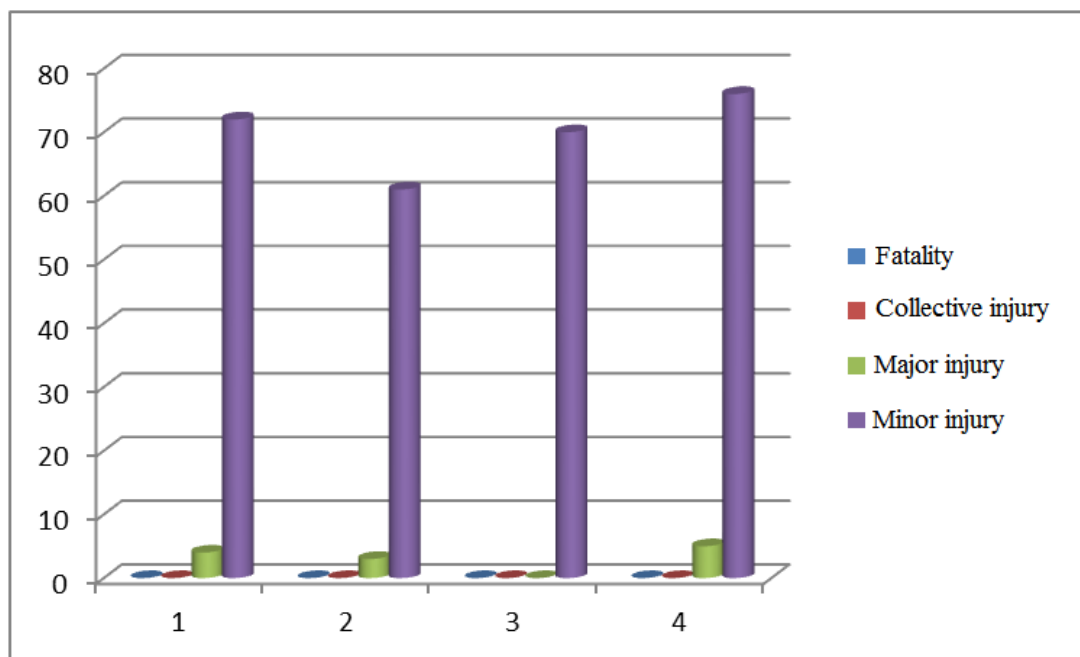

Figure 301. Accidents - injuries at work in the mines during 2015, 2016, 2017 and 2018 by types of injuries

6. CHALLENGES AND RECOMMENDATIONS

6.1. Prevention and prohibition of illegal operations and increasing the quality and safety at work

The practice has shown that the prevention and prohibition of illegal mining operations requires an inter-institutional interaction and without such coordination, it is difficult for the ICMM to achieve the aim to prohibit and prevent the unlicensed mining operations.

6.1.1 Cooperation with the country Institutions

- Inter-institutional cooperation on prevention and prohibition of illegal operations has continued as well during 2018 with officials of the Directorate of Municipal Inspectorate, Kosovo Police, Department on Investigation of Serious Crimes, where it was held an Workshop for presentation of Information Brochure on 11.09.2018 and then the information meetings were held in each Region of Kosovo Police, organized by DISC. We are waiting for the Operative Plan to be issued by DISC - Kosovo Police where KP are obliged to supervise the illegal operators especially those cases that have more than dozens of reports with fines.
- An simplified report has been prepared and submitted to the Adviser of the General Prosecutor, Mr Shqipdon Fazliu.
- We have prepared the action plan in cooperation with the Officials of the MESP for Kosovo Police for sequestration of minerals - coal. This action is done in every day with different and not prearranged itinerary. As I said publicly the support of KP (no matter they were present) didn't give results especially when the operators blackmailed us for the lack of oil in trucks or small trucks, just for your information we have ordered in three cases to buy oil for trucks or small trucks in order to sequesterate the resource without origin.
- Minerals – coal is stored in the coal separation plant of KEK, in this case I want to thank the Executive Director Mr Adil Januzi for creation of necessary infrastructure to execute this action.

6.1.2 The challenges to accompany us in this year are:

- Inefficiency of judicial bodies in reviewing criminal charges proceeded to the Courts by the ICMM (recently there is a considerable progress)
- Relatively low penalties by the Court for illegal operators as it is foreseen in article 80 of the Law on Mines and Minerals

- Not arresting illegal operators and control of material origin by the Kosovo Police as it is foreseen in article 70 of the Law on Mines and Minerals
- Although the agreement with the Agency for Administration of Sequestered or Confiscated Assets is signed, the same one still has not enough capacity for storage and keeping the sequestered assets and commodities in certain storages in the regions.

Hereupon, the ICMM recommends taking the following measures:

- Approval of Action Plan on prevention and prohibition of illegal operations by the Government of the Republic of Kosovo and its implementation by the respective institutions mentioned in this document
- Taking decision by which the Kosovo Police is obliged to control the transporter of commodities, in order to verify valid license
- Increase the efficiency of Courts to speed up reviewing criminal charges for unlicensed operators
- Develop an awareness campaign to prevent and prohibit unlicensed operations
- Not issuing Working Contracts by Municipal Assemblies, Ministry of Education (for heating of schools), Ministry of Infrastructure, for the use of material for infrastructure and heating without any evidence of purchase of that product, whether for infrastructure or for heating, it is worth emphasising that the MESP has issued a decision to not use coal for heating in public institutions
- Issuance of contracts to build dikes to be accompanied with a preliminary notice for us as ICMM, since in these cases there is abuse of mineral resource during the implementation of that project
- We have sent as well in 2018 a special CD with measures for enterprise attacked by the illegal operations that in fact they have the exploited material without origin in the aspect of declaration in TAK always with purpose to take penalty measures from TAK in order to decrease the scope of illegal operators.
- A great number of illegal operators are working with electricity. No matter these operators may pay regularly the electricity they use, we propose to remove these operators from the electric network and the connection with electricity to be done only for those operators that obtain licences to undertake mining activities from ICMM.

This right arises as well from the Law on the Inspectorate of Environment, Waters, Nature, Spatial Planning and Construction No.04/L-175, Article 44, that says:

Temporary interruption of activity

1. If during the inspection and surveillance inspection, the inspector finds irregularities that threaten life, health, environment and other cases stipulated by law, will temporarily cease

conducting business with the sealing-bar, setting the bar areas, facilities, construction sites, equipment, labour tools and other means, for removing the irregularities.

2. In cases from paragraph 1 of this Article, the inspector orders the cooperation with competent legal entities that perform public services, water supply, electricity and related services to quit the service to the supervision subject.

- The enterprises for production of construction elements are doing an increased activity and as well encouraging activity of illegal operations where they use clay, sand and gravel as raw materials. These enterprises are not licensed by the ICMM, especially those dealing with the use of clay but also those dealing with the production of concrete elements. Therefore, it makes difficult to prevent illegal operations and encourage illegal operators, so their licensing would create a basis to prevent illegal operations. Also we think that the control from TAK to determine the origin of material will help in this case to not encourage these enterprises to be illegal operators.
- Mineral resources as a country asset, must be protected and not be blocked by building various infrastructural or other objects on them or in their vicinity. Here, all relevant institutions and other actors related to mining sector should find the best solutions in favour of rational use of mineral resources
- In this case, the land conflict that it is now very serious (e.g. the difficulties to be faced by a coal mine with the surrounding villages), in the near future is expected to be even more severe where serious obstacles may appear to the development of the mining sector. But, this problem occurs to the many other commodities, owners, enterprises, institutions, etc.
- Planning that the enterprises are doing for exploitation of commodities is in noncompliance with realisation. The ICMM, MED and other relevant institutions should carefully monitor this phenomenon in following year and they should analyse all necessary parameters why this inconsistency is happening.

Although good results were during this year, the Inspectorate of Mines in cooperation with other institutions will continue to prevent and prohibit illegal operations in all regions of the Republic of Kosovo.

6.2. Increase of quality and safety at work in mining operations

Although the function of the mining sector in Kosovo is associated with better security, it is still a challenge for Inspectorate of Mines that in cooperation with relevant institutions to adopt and apply technical and security standards that are applied in the EU countries such as:

- Promoting culture of safety and security at work
- Strict implementation of safety and security measures to prevent accidents and failures in mines with surface and underground exploitation

- Providing effective monitoring system of inspections and investigations on accidents and failures at work and their regular recording to the processing of these cases in Courts.

6.3. Non-treatment on time of cases submitted in Courts

Criminal sanctions imposed by the Courts are not reaching the effect to prevent prohibition of illegal operations. Regarding the functioning and implementation of the legislation in general, among others for the mining field, these challenges were and remain to be:

- Delay issue by competent Court to review cases for unlicensed actions by the ICMM, postponing sessions for several times to the obsolete cases, and thus it creates a loss of time to the staff to go to the Courts and thus it has created unnecessary financial costs. The measures taken by the Court do not comply with the damage caused by unlicensed operators, as it is foreseen by the LMM.
- Then the non-implementation of the legal provisions to sequester material/work means that are encountered at the scene, respectively when operating unlicensed. We have tried several times to find support from the Agency for the Administration of Sequestered or Confiscated Assets to carry out the sequestration of material/machinery, as provided in article 70 of the LMM, but we think this Agency without right has asked us the Court's decision for sequestration of the work means;
- The issue of bank guarantees is also a challenge, in cases where the surface presented in applications is a mountain culture and a bank guarantee is required by the ICMM according to the LMM and KFA for re-cultivation, and also the price differs per unit/hectare; therefore the harmonization of these legal or sublegal provisions should be harmonized. The Law on Agricultural Land, the Law on Forests, the Law on Environmental Protection have legal gaps and obligations deriving from EU legislation are not included at some points. The LFK should be harmonized with the LMM in order not to require double guarantees, one from ICMM and one from KFA;
- The ICMM has had another challenge during 2018, the issue to take funds for re-cultivation from insurance companies when enterprises did not carry out surface re-cultivation after the expiration of licenses or permits, and now insurance companies do not approve the ICMM's requests, to return the re-cultivation funds as it is foreseen by the LMM;
- The Court's ineffectiveness in collecting financial obligations to ICMM debtors, according to the execution proposals related to previous year's cases.
- Continuous repetition of offenses by the same illegal operator;
- Sequestration of minerals and machinery;
- Collection of revenues/debts from enterprises with mining activity;
- Damage of competition from illegal mining activities;
- Insufficient budget to carry out ICMM activities, especially in staff completion.

7. FINANCIAL REPORT

Budget of the Independent Commission for Mines and Minerals for 2018 was allocated in the following 4 (four) budget lines:

Table 22: Budget approved at the beginning of 2018

Ord. No.	Description	Year 2018
1	Wages and Salaries	812,552.00 €
2	Goods and Services	386,281.00 €
3	Utilities	30,600.00 €
4	Subsidies and Transfers	- €
5	Capital Projects	154,000.00 €
	Total Approved	1,383,433.00 €

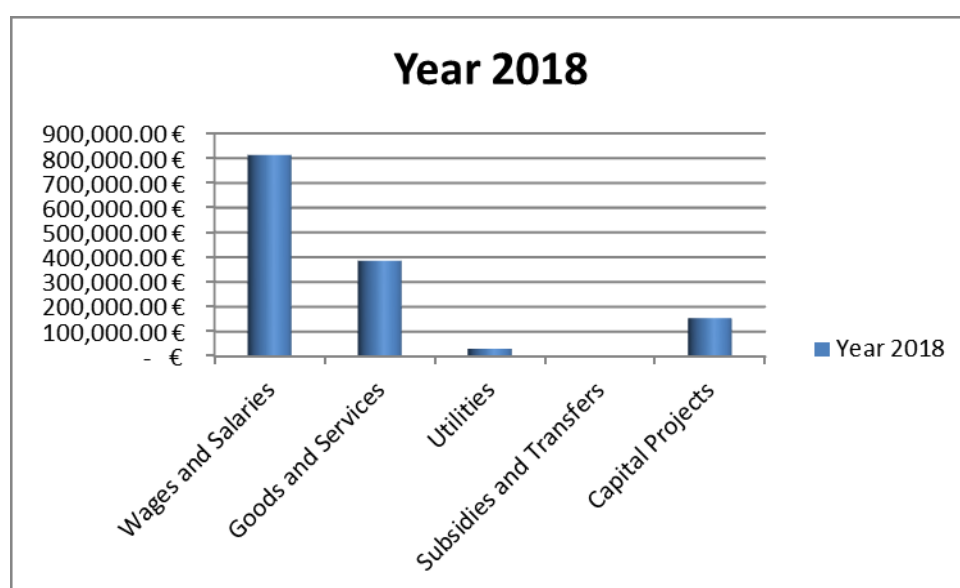

Figure 312. Budget approval at the beginning of 2018

Final budget of the ICMM for 2018 is as in the following table

Table 20: Budget after review for 2018

Ord. No.	Description	Year 2018
1	Wages and Salaries	795,660.52 €
2	Goods and Services	386,280.93 €
3	Utilities	23,911.09 €
4	Subsidies and Transfers	- €
5	Capital Projects	23,500.00 €
	Total Approved	1,229,352.54 €

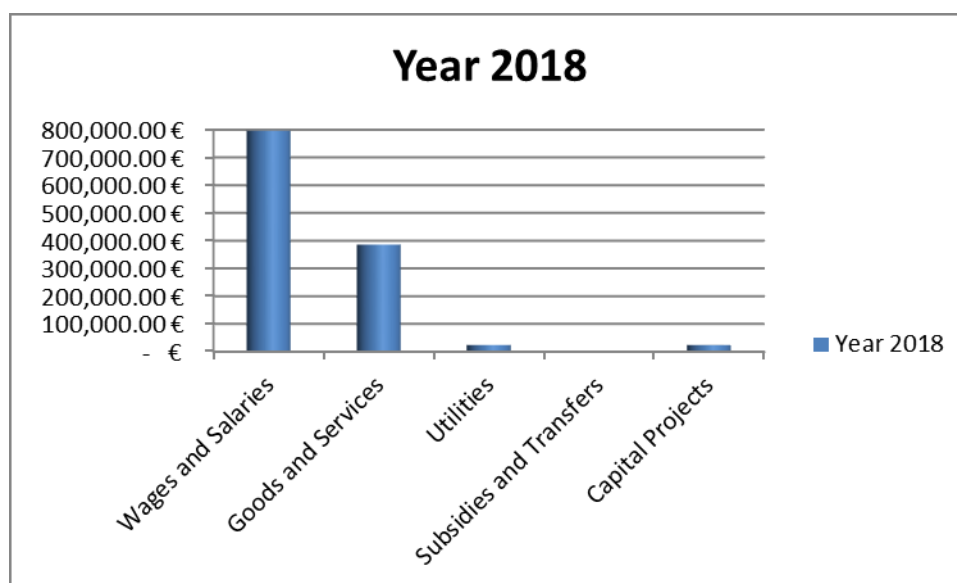

Figure 32. Final budget approval in 2018

This change of budget is done by budget review.

Table 21: Approved and spent budget for this period of 2018

Ord. No.	Description	Approved	Spent	Difference	In %
1	Wages and Salaries	795,660.52 €	795,660.52 €	- €	100.00
2	Goods and Services	386,280.93 €	376,584.92 €	9,696.01 €	97.49
3	Utilities	23,911.09 €	15,898.90 €	8,012.19 €	66.49
4	Subsidies	- €		- €	#DIV/0!

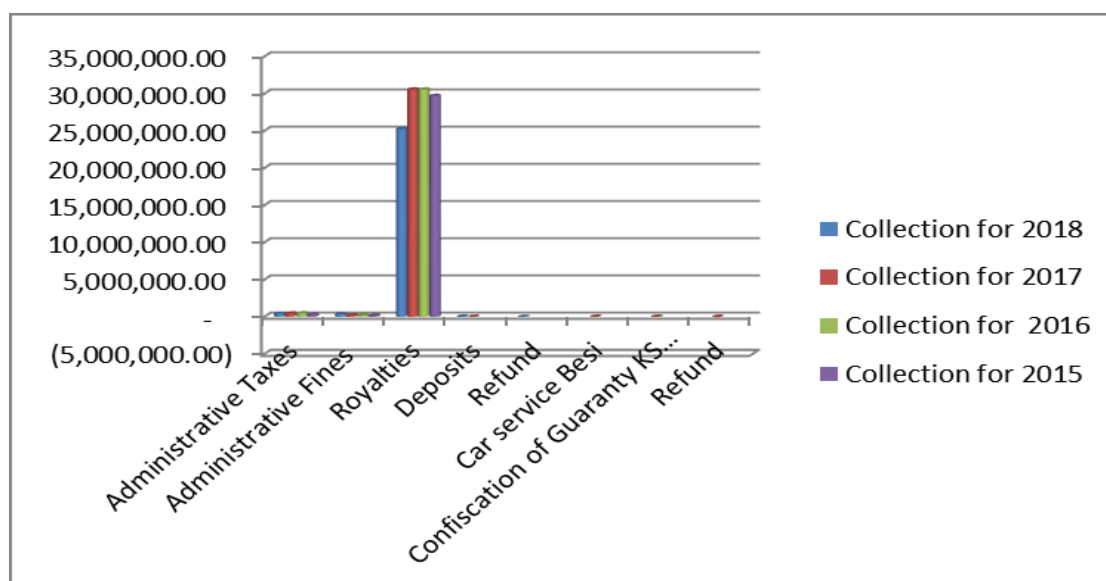

Figure 402. Revenue collection for 2018-2015

The obligations of enterprises to the ICMM in the years are 25,868,146.89 €.

Trepça Artana, Stanterg, Beloberdo and Crnac did not perform their financial obligations to the ICMM, these Mines' obligation to the ICMM for 2018 including interest is 1,012,474.39 €, while the total obligation of Trepça is 12,414,394.75 € or 45% of total debt.

8. REPORTING ABOUT THE COMMENTS OF THE OFFICE OF THE AUDITOR GENERAL

8.1 The Office of the Auditor General (OAG) has undertaken regularity audits in the Independent Commission for Mines and Minerals (ICMM) in accordance with its duties and responsibilities. OAG has given its opinions and evaluations for its scope of activities and focuses of audit.

8.1.1 Audit Opinion - Unmodified Opinion, The AFS have audited AFS of the Independent Commission for Mines And Minerals (ICMM) for the year ended on 31st of December 2017 which comprise of the Statement of Cash Receipts and Payments, Budget Execution Statement, Disclosure and other accompanying reports.

In our opinion, the Annual Financial Statements for the year ended on 31st of December 2017 present a true and fair view in all material respects in accordance with International Public Sector Accounting Standards (according to cash based accounting), Law no.03/L-048 on Public Financial Management and Accountability and Regulation MoF no.01/2017 on Annual Financial Reporting by Budget Organisations.

8.1.2 Financial Management and Control - ICMM in general has good controls in relation to its statutory obligations. However, the area of revenues, such as on-going supervision of license holders, prohibition of illegal operations and receivables, remain a challenging field.

8.1.3 Good Governance - The ICMM has prepared a risk register, identifying some risks that might impact the organization in achieving its objectives, and the self-assessment questionnaire reflects the current situation.

The ICMM has implemented some recommendations but still requires additional engagement in order to fully implement the recommendations.

8.1.4 Internal Audit System: The Internal Audit Unit (IAU) is comprised of an auditor (IAU Director), who had approved the annual and strategic plan. IAU had fulfilled the audit plan, which for 2017 planned and carried out five regular audits. The audits carried out by the IAU cover the following departments, such as the joint departments for mines and minerals (scope 2016/2017), finance department (scope 2017) and procurement department (scope 2017). In the internal audit reports, 53 recommendations were given. Out of these, 30 were implemented, 15 were in process of implementation, and 8 recommendations were not implemented. We encourage the management to take actions in order to fully implement the recommendations arising from the IAU reports. Further on, IAU reported on quarterly basis to the Central Harmonisation Unit within the Ministry of Finance. The Audit Committee held four meetings. Issues raised by audit reports were evaluated and addressed by them, drawing conclusions and recommendations for the management.

8.1.5 Management Reporting, Accountability and Risk Management - From our review of the managerial control implemented in this field, we can conclude that the Management has set an adequate organisation structure, it has done the delegation of duties and responsibilities and it was informed for the processes developed within the institutions. Departments and divisions prepare regular reports to the Director General, who also organised regular working meetings with Heads of Units, which are followed with the minutes of meeting.

8.2 The following table presents the findings, recommendations and level of their implementation for each audit case for the AFS Audit Report completed on 31.12.2017

Table 325: The comments (findings), recommendations and the level of their implementations

No	Audited Components or Issues		Recommendations fully addressed	Recommendations partially addressed	Recommendations not addressed
	Findings	Recommendations			
1.	Issue 1 – Implementing Earlier Year Recommendations		Yes		
	Finding 1 Article 34 of Law no. 03/L-163 on Mines and Minerals amended by Law no. 04/L-158 foresees that: - License holders for the use of mining assets must report a summary of all results mining asset, exploitation activities, accurate details of tonnage, volume, composition, scale and value of manufactured minerals covering the relevant period. From the tested samples, it has been noticed that in two cases, mining assets license holders, have not reported on exploitation activities as exact details of the tonnage, volume, composition, scale and value of the produced minerals.□	Recommendation 1 The Chairman of the Board should ensure that appropriate measures are taken to increase the accountability and efficiency of the relevant mechanisms in order to provide complete information on the volume of manufactured minerals and the activity of the licenses users as provided under the applicable law.			
2.	Issue 2 – Revenues from illegal operations			Yes	
	Finding 2 The ICMM during 2017 identified 80 cases of illegal operations, resulting in 76 criminal charges in the relevant Basic Prosecution Offices. For identified cases, ICMM imposed fines in the amount of €605,200 and filed 115 cases/proposal for execution ² in the amount of €743,684 against illegal operators. Although ICMM Inspectorate having undertaken co-operation with relevant institutions action to stop illegal operations and impose fines, we	Recommendation 2 The Chairman of the Board should ensure immediate and effective coordination and efficient action is taken through state bodies ³ in order to influence the prohibition of illegal activities. It should also analyse the effectiveness of the available mechanisms for collection of fines, as well as propose additional measures and procedures that have a direct impact on the prohibition of illegal operations, collection of			

	noticed that the effect was poor.	debts and protection of the country's property			
3.	Issue 3 – Certifying Officer		Yes		
	Finding 3 LPFMA no.03/L048, articles 14 and 15, stipulate that any Budget Organisation, autonomous Executive Agency and Publicly Owned Enterprise should have a Certifying Officer in place who is appointed and reports to the Chief Administrative Officer. ICMM does not have a Certifying Officer in place, but this function is performed by the Head of Administration Department which manages and oversees the logistics and transportation division, the personnel division and the language sector. In the Act of Appointment is “Head of Administration Department” while the description of duties also foresees that he acts also as Certifying Officer for certification and approval of payments. During the audit we have noticed that the Head of the Administration Department also certifies the expenditures that he approves for divisions under supervision. According to the ICMM, the engagement of the Head of the Department as a Certifying Officer is justified in the period when the ICMM was UNMIK reserved competence when the management then tasked the Head of the Administration with additional responsibilities such as Certifying function and the current management did not handle it as a matter of special importance.	Recommendation 3 The Chairman of the Board should ensure that an appropriate solution is found to cover the position of the Certifying Officer under the LPFMA.			
4.	Issue 4 - Asset Management		Yes		
	Finding 4 Finding in asset management we identified the following	Recommendation 4 The Chairman of the Board should strengthen controls on			

	shortcomings: • On 31.01.2017, ICMM issued a decision (no.05/07) on the donation of assets to the Correctional Centre in Lipjan. Whereas with the decision no. 40/2017 dated 28.09.2017, the ICMM establishes a committee for evaluating non-financial assets. The relevant committee after finalising its work, identified the assets that are out of use for disposal. We identified that donated and destroyed assets were not removed from the non-financial assets register; • We also identified that 20 laptops and accompanying devices in the amount of 14,524 although they were registered in the KFMIS, they were also registered in the e-assets system. In this case, the assets were overstated by €14,524.	asset management by making proper records and removing from the register all donated and disposed assets so that the asset presented in the AFS at the end of the year is accurate and complete.			
	Issue 5 – Increase of receivables ☐				
5.	Finding 5 It is noticed that the ICMM has an on-going increasing trend of receivables from year to year (16% only 2017). This was despite the fact that ICMM applied debt programming, conditioning permits, imposing fines and engaging private bailiff in order to achieve the best results, but this action had not shown any concrete effect. We have also recommended these issues in the past year, but this is still a challenge for ICMM.	Recommendation 5 The Chairman of the Board should ensure that appropriate measures are taken including legal actions in order to increase the efficiency in collecting receivables.		Yes	
6.	Issue 6 – – Implementing Earlier Year Recommendations				

	Finding 6 The ICMM implemented a formal process of managing and monitoring the implementation of earlier year recommendations given by AG, the Action Plan has not been fully met and some shortcomings are repeated from the previous year. This relates to failure to report license holders, continuing with illegal operations, and continued increase of receivables.	Recommendation 6 The Chairman of the Board should ensure that a revised action plan has been implemented to address the remaining 2015 and 2016 recommendations. This plan should define reasonable timetable for the implementation of the recommendations made by the AG, with the accountable staff identified. Progress towards the plan should be systematically monitored by management to ensure full implementation of the recommendations.		Yes	
--	---	--	--	-------------------	--

9. ANNEXES

The annexes are listed below that are attached to the ICMM's Annual Report for 2018

1. List of the active Exploration and Mining Licences
2. List of the active Special Operation Permits
3. Obligations in years
4. List of the criminal charges
5. List of administrative fines
6. List of proposals for execution
7. Action plan to prevent and prohibit unlicensed operations

Annex 1. List of the active exploration and mining licences 2018

Active Exploration Licenses until 31.12.2018

Annex 7. Action plan to prohibit illegal exploitation

ACTION PLAN TO PREVENT AND PROHIBIT ILLEGAL EXPLOITATION OF MINERAL RESOURCES

The aim of the Action Plan and the current situation in this sector

The aim of the action plan is to prohibit exploitation of illegal operations and environmental protection from degraders who exploit mineral resources.

The obligations arising from the Law No. 03/L-163 on Mines and Minerals, the amended Law No. 04/L-158, the Law No. 03/L-025 on Environmental Protection, the Law No. 03/L-214 on Environmental Impact Assessment, the Law No. 43/L-147 on Waters of Kosovo will be fulfilled by the implementation of this plan.

Mining operations of illegal exploitation are causing great losses to the budget of the Republic of Kosovo; as a result of this we constantly have large environmental degradation, especially along the riverbanks, where their rehabilitation will have a high cost.

As a result of illegal operations and environmental degradation, we are facing disasters of all kinds and the loss of lives of the local community respectively our children, then this activity causes unfair competition to licensed enterprises that fulfil all legal obligations, and the use of poor quality materials in the construction of road infrastructure is also considered financial damage.

The coordination of the following institutions is required in order to prevent illegal operations:

1. Independent Commission for Mines and Minerals (ICMM)	2
2. Ministry of Environment and Spatial Planning.....	3
3. Ministry of Internal Affairs (MIA)	3
3.1. Kosovo Police (KP).....	4
4. Ministry of Finance (MF)	4
4.1 Tax Administration of Kosovo (TAK).....	4
5. Ministry of Justice (MJ)	5
5.1 Agency for Administration of Sequestrated or Confiscated Assets (AASCA).....	5
5.2. Kosovo Prosecutorial Council.....	6
5.3. Kosovo Judicial Council	6
6. Ministry of Infrastructure (MI).....	6
7. Ministry of Local Government Administration (MLGA)	6
8. Ministry of Trade and Industry	7
9. Energy Regulatory Office	7
10. CONCLUSIONS	7

1Independent Commission for Mines and Minerals (ICMM)

1.1 Pursuant to Law 03/L-163 on Mines and Minerals Article 70 that deals with the illegal activities of exploration, mining and special activities, the ICMM is obliged to:

- 1.1.1 If an authorized inspector has good reason to believe that a person is conducting exploration, mining or special operations and that such person does not hold any License or Permit from the ICMM, the inspector shall immediately inform the Kosovo Police, which shall be required to immediately dispatch at least two officers to the scene.
- 1.1.2 After the arrival of the police officers, and with their assistance, the inspector shall obtain the identity of the persons involved in such activities and determine whether or not such persons or their employer, (if any), holds a License or Permit from the ICMM.
- 1.1.3 If no such person or their employer (if any), holds a License or Permit from the ICMM, the police officers shall arrest the concerned Persons, who shall be subject to the administrative fine provided for in paragraph 2 of Article 79 of this law and the criminal penalties established by this law in Article 80. Furthermore, the inspector shall sequester all working means and extracted minerals at the scene.
- 1.1.4 If such persons or their employer do hold such a License or Permit from the ICMM, but the mining or exploration activities being conducted are not authorized by such License or Permit, the inspector shall immediately report the unauthorized activities to the ICMM, and the ICMM shall be required to impose on the Licensee or Permit Holder the measures provided for in Article 9 of this law.
- 1.1.5 The Kosovo Police and other public authorities authorized by law to inspect have an obligation to identify if users or carriers of mineral resources hold a License or Permit from the ICMM, if it is determined that the operator or carrier does not hold a License then the Police stops and sequester equipment, minerals and the vehicle used to transport illegal mineral resources.

1.2 Pursuant to Law No. 03/L-163 on Mines and Minerals Article 79 paragraph 3, 4, 5 provides:

- 1.2.1 If any person unlawfully mines minerals, the ICMM shall impose upon such person a fine equal to three times the amount of royalties payable on the minerals mined. The ICMM shall establish a reasonable methodology for estimating the amount of minerals unlawfully mined and shall determine such fine in accordance with that methodology.
- 1.2.2 If any person conducts any exploration, mining or special operation without holding the required License or Permit, the ICMM shall issue an order imposing on such Person a fine of five thousand (5,000) € for each illegal mining operation.
- 1.2.3 The monetary fines and remedial requirements specified in this article are cumulative and the ICMM shall issue whatever orders are necessary **to impose** on the concerned Person(s) all applicable fines and remedial requirements.

1.3 Article 80 Criminal Penalties for Illegal Mining Activities

- 1.3.1 Any physical person who engages, or who encourages or employs others to engage, in mining or exploration activities and special operation permits and who does not hold a License or Permit from the ICMM shall be subject to the administrative fine provided for in paragraph 2, subparagraph 2.1, of article 79 of this law and imprisonment for a period of up to six (6) months.
- 1.3.2 If for any objective or subjective reasonable reason, the ICMM failed to create logistic mechanisms to transport the sequestered means then the ICMM shall issue an order for sequestration of illegal means, notify the prosecutor, and the AASCA with prosecutor order in compliance with article 5 paragraph 2 of the Law No. 03/L-141 shall provide logistical support for sequestration of means declared as sequestered by the ICMM.

Ministry of Economic Development

MED is obliged based on Mining Legislation and the Mining Strategy to present in the implementation plan of the Mining Strategy the concrete measures and activities to prohibit and prevent illegal mining activities.

2 Ministry of Environment and Spatial Planning

Pursuant to the Law No. 03/L-025 on Environmental Protection, the Law No. 03/L-214 on Environmental Impact Assessment, the Law No. 43/L-147 on Waters of Kosovo and sublegal acts:

2.1 Illegal activities of sand and gravel exploitation

2.1.1 If the inspector of MESP has encountered an illegal exploitation of sand and gravel and that such operator does not hold the Environmental Consent and the Water Permit from the MESP, the inspector shall take all the necessary data in minutes for illegal operator, he shall write the actual situation at the location where the action is conducted, he shall take necessary photos of the terrain and used machinery.

2.1.2 If the operator does not accept giving accurate records, the inspector shall immediately inform the Kosovo Police, which shall be required to immediately dispatch at least two officers to the scene. After the arrival of the police officers, and with their assistance, the inspector shall obtain the identity of the persons involved in such activities and determine whether or not such persons or their employer, (if any), holds an EC or WP from the ICMM.

2.1.3 If no such person or their employer (if any), holds an EC or WP from the MESP, the case will go to Judicial procedure in compliance with applicable legal provisions.

3 Ministry of Internal Affairs (MIA)

MIA shall issue a decision which obliges KP to stop loading trucks and identify if they are transporting licensed raw materials (with fiscal receipt) or **illegal** raw minerals and obliges the KP to arrest the illegal operators as foreseen by the Law on Mines and Minerals. If it is determined by the ICMM inspectors that the transporting vehicle is carrying illegal mineral resources, the ICMM Inspector in coordination with KP and the prosecutor shall inform

AASCA to sequester the illegal asset. It shall oblige KP to assist the Inspectorate of Mines and MESP and to provide protection in the pursuit of illegal operations and arrest illegal operators.

3.1. Kosovo Police (KP)

- 3.1.2 KP in compliance with the article 70 of Law 03/L-163 on Mines and Minerals after notification from the Inspectorate of Mines shall immediately dispatch at least two officers to the scene.
- 3.1.3 If Inspectorate determine that no such person or their employer (if any), holds a License or Permit from the ICMM, the police officers shall arrest them in compliance with the article 70 paragraph 3 of the Law 03/L-163 on Mines and Minerals.
- 3.1.4 The concerned persons then are imposed to administrative fines provided for in paragraph 2 of article 79 of the Law No. 03/L-163 on Mines and Minerals and criminal penalties under article 80 of the same Law, as well as penalties by courts of the Law No. 04/L-158, the Law No. 03/L-025 on Environmental Protection, the Law No. 03/L-214 on Environmental Impact Assessment and the Law No. 43/L-147 on Waters of Kosovo.
- 3.1.5 KP will stop the loading trucks that are in the streets of Kosovo and they will identify if they Fiscal Receipt. If the loading trucks don't have Fiscal Receipt they are considered illegal and KP stops them immediately. **After the vehicle's driver is stopped**, the KP shall notify the Inspectorate of ICMM to go to the scene; after the Inspector of Mines goes to the scene he shall release a decision on sequestration and he shall invite AASCA to make handover of machinery and sequestered minerals.
- 3.1.6 **After the sequestration the vehicle and raw materials, the relevant Prosecution** shall be notified about each prohibited vehicle that was transporting raw material of illegal mining **operations**.
- 3.1.7 Upon issuing the Order for Sequestration, the Inspectorate of mines shall complete the report based on evidence from the field and shall submit it for execution in AASCA and State Prosecution.

4 Ministry of Finance (MF)

MF shall issue a decision which obliges TAK to equip the enterprises licensed by the ICMM with Fiscal Cash Register, **and** it shall prohibit to be equipped with Fiscal Cash Register **those** companies that do not have licenses from the ICMM, **and which deals with the mining activity**.

4.1 Tax Administration of Kosovo (TAK)

TAK is obliged that based on legal provisions to oblige mining enterprises to be equipped with Fiscal Cash Register, so it is required that as well TAK to oblige all enterprises licensed by the ICMM to be equipped with Fiscal Cash Register, and it shall oblige enterprises to issue fiscal receipts for each load of **raw mineral**, each truck driver is obliged to have a fiscal receipt with himself in case of identification by the Inspectorate of Mines or the Kosovo Police.

Also TAK shall control and put the Fiscal Cash Register to all enterprises dealing with the sale and purchase of construction materials and especially to all enterprises dealing with production of concrete elements (these enterprises are not licensed by ICMM).

TAK will not equip the enterprises with Fiscal Cash Register which do not present the Mining License or Special Operation Permit from the ICMM.

The effect to be achieved with Fiscal Cash Register:

- 4.1.1 It will be easier for TAK to control the sales of these Enterprises, and it will be easier for it to impose them with applicable taxes.
- 4.1.2 The Fiscal Cash Register shall oblige the enterprises to recognize the ORIGIN OF MATERIAL, which in fact it is a direct step to prevent illegal operation.
- 4.1.3 It will be easier for Kosovo Police when it stops trucks with mineral load to determine if there is a legal or illegal operator.
- 4.1.4 The ICMM will ensure that enterprises will not be able to hide the amount of the mineral mined, and from this there will be a real royalty.
- 4.1.5 Enterprises will not have an interest to exploit outside the exploitation areas because regardless of the place where they take, they will be obliged to pay Taxes and Royalties.

5. Ministry of Justice (MJ)

MJ shall issue a decision that obliges AASCA to start immediately with the administration of Sequestered Asset declared by the Inspectorate of ICMM and to support the ICMM in the implementation of this Action Plan.

5.1 Agency for Administration of Sequestered or Confiscated Assets (AASCA)

The AASCA in compliance with article 5, paragraph 1 of the Law No. 03/L-141 shall manage the sequestered equipment (mechanism) and mineral by the ICMM inspector of Mines

After receiving information from the Inspectorate of Mines, the AASCA shall immediately go the scene and shall accept the sequestered equipment and minerals from the Inspector of Mines.

The AASCA shall decide whether to make the transport of the sequestered equipment in stores defined previously, or it will save them in other places.

If for any objective or subjective reasonable reason, the ICMM failed to create logistic mechanisms to transport the sequestered means then the ICMM shall issue an order for sequestration of illegal means, notify the prosecutor, and the AASCA with prosecutor order in compliance with article 5 paragraph 2 of the Law No. 03/L-141 shall provide logistical

support for sequestration of means declared as sequestrated by the ICMM.

5.2. Kosovo Prosecutorial Council

Kosovo Prosecutorial Council shall issue a decision which obliges the Basic Prosecutions of all Municipalities to deal urgently with cases related to illegal operations in the mining sector that are forwarded by the ICMM, MESP and KP. Kosovo Prosecutorial Council in coordination with AASCA and the Inspectorate of Mines shall execute the sequestration of illegal operator's means.

If for any objective or subjective reasonable reason, the ICMM failed to create logistic mechanisms to transport the sequestrated means then the ICMM shall issue an order for sequestration of illegal means, notify the prosecutor, and the AASCA with prosecutor order in compliance with article 5 paragraph 2 of the Law No. 03/L-141 shall provide logistical support for sequestration of means declared as sequestrated by the ICMM.

5.3. Kosovo Judicial Council

KJC shall issue a decision which obliges the Basic Courts and Courts of Appeal to deal urgently with cases related to illegal operations in the mining sector.

6. Ministry of Infrastructure (MI)

MI shall issue a decision which prohibits the use of the unlicensed raw mineral in the construction of road infrastructure, by this decision it shall oblige the supervisory body to check the origin of the material, it obliges the enterprise to submit copies of fiscal receipts for the used raw mineral. **It shall prohibit giving tenders to unlicensed Enterprises that have mineral resource as its own production.**

7. Ministry of Local Government Administration (MLGA)

MLGA shall issue a decision which obliges Municipalities to prohibit the enterprises contracted by Municipalities to use unlicensed raw mineral for the construction of road infrastructure but also residential buildings (the origin of sand and gravel for concrete production). By this decision, it shall oblige the Supervisory Body to check the origin of the material, it shall require from enterprises to submit copies of fiscal receipts for the used raw mineral, always to identify the origin of the material.

8. Ministry of Trade and Industry

We require from the Ministry of Trade and Industry to control Licenses issued to Enterprises dealing with the production of Concrete Elements (always checking the origin of the material, especially sand and gravel).

9. Energy Regulatory Office

We require from the Energy Regulatory Office to disallow in no way the use of electricity (connecting to the network and putting the electricity meter) for enterprises without possessing a valid license from the ICMM.

10. CONCLUSIONS

The effects to be achieved by the implementation of this Action Plan are positive effects for the Mining Sector in the whole territory of Kosovo so that:

- It will stop the degradation of the environment especially riverbanks, where rehabilitation of these areas will have a high cost.
- It will increase the level of safety, respectively the avoidance of accidents in abandoned mining areas
- We will have directly increased revenues for the budget of the Republic of Kosovo.
- It will be achieved to ensure a fair competition because the illegal operations are causing unfair competition to licensed enterprises.
- It will be achieved to check the quality of the material which it is used in the construction of roads and residential buildings and other infrastructure buildings
- The attention and commitment to adequate treatment of this Action Plan in general contribute to four main segments related to the mining sector and directly related to the prospect of Kosovo's citizens:
- Support of ICMM to execute the laws of this field,
- Assistance directly to the entire population of Kosovo through protection of the environment,
- Support of licensed enterprises,
- Reduction - eliminating the risks that can arise from uncontrolled illegal operations.
